FROM	TO	PLUGGING MATERIALS	FROM	TO	PLUGGING MATERIALS
0'	1'	Rockite Expansion Cement		Note:	The casing was full of vegetative stubble in the top 2 feet. When we cut casing off, it was full of compacted silt loam soil. Seeing no reason to excavate we removed the first foot of silt and poured a Rockite plug, covered with a limestone, and backfilled the hole.
	Note:	This was suspected to be an abandoned irrigation well however, actual purpose is unknown.
