Re: Water Right
File Nos. 3,017 & 27,122

Dear Brandon:

Enclosed are the orders executed by David W. Barfield, Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the terms, conditions and limitations specified in these approval for change. Also, the approval orders require the installation of a water flow meter on the point of diversion authorized under the above referenced file numbers by December 31, 2013. A copy of the Chief Engineer's specifications for the water flow meters are found in K.A.R. 5-1-4 through K.A.R. 5-1-12 and can be obtained from our website at the following address:

www.ksda.gov/appropriation/statutes/

A partial list of those meters found to be acceptable can be obtained from the following web address:

www.ksda.gov/includes/document_center/appropriation/DWR_forms/1_204_7.pdf

Since these orders modify the original certificates under File Nos. 3,017 & 27,122, they should be recorded with the Register of Deeds as other instruments affecting real estate.

These documents are a summary order by this agency regarding this matter. This order shall become final if a request for a hearing is not filed with the Chief Engineer within 15 days of the date of service of this order.

If you have any questions, or if we may be of assistance, please feel free to contact this office.

Sincerely,

Brett L. Bunger
Assistant Water Commissioner
