

WATER WELL RECORD

Form WWC-5

Division of Water Resources: App. No.

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																									
County: Wyandotte		SE ¼ SE ¼ SW ¼		15		T 11 S		R 24 E																																																																									
Distance and direction from nearest town or city street address of well if located within city? 6700 Kaw Dr. Kansas City, KS 66111				Global Positioning System (decimal degrees, min. of 4 digits)																																																																													
2 WATER WELL OWNER: Carole Smith RR#, St. Address, Box # : 6191E. Eastman Ave. City, State, ZIP Code : Denver, CO 80222				Latitude: N 39.08894°																																																																													
				Longitude: W 94.73392°																																																																													
				Elevation: RIM: 776.36 TOC: 776.07																																																																													
				Datum: above mean sea level																																																																													
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX: <div style="text-align: center; margin-top: 10px;"> </div>				4 DEPTH OF COMPLETED WELL 30 ft.																																																																													
				MW12																																																																													
				Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																													
				WELL'S STATIC WATER LEVEL 28.48 ft. below land surface measured on mo/day/yr 8/26/08																																																																													
Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																	
Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																	
WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																	
1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																	
2 Irrigation 4 Industrial 7 Domestic (lawn & garden) (10) Monitoring well																																																																																	
Was a chemical/bacteriological sample submitted to Department? Yes _____ No X ; If yes, mo/day/yr _____																																																																																	
Sample was submitted _____ Water Well Disinfected? Yes _____ No X																																																																																	
5 TYPE OF CASING USED:																																																																																	
1 Steel		3 RMP (SR)		6 Asbestos-Cement		9 Other (specify below)		CASING JOINTS: Glued _____ Clamped _____																																																																									
(2) PVC		4 ABS		7 Fiberglass				Welded _____																																																																									
								Threaded X																																																																									
Blank casing diameter 2 in. to 15 ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																	
Casing height below land surface 0.29 ft., Weight _____ lbs./ft. Wall thickness or gauge No. _____																																																																																	
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																	
1 Steel		3 Stainless steel		5 Fiberglass		(7) PVC		9 ABS																																																																									
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)		10 Asbestos-Cement																																																																									
								11 Other (specify) _____																																																																									
SCREEN OR PERFORATION OPENINGS ARE:																																																																																	
1 Continuous slot		(3) Mill slot		5 Gauze wrapped		7 Torch cut		9 Drilled holes																																																																									
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut		10 Other (specify) _____																																																																									
								11 None (open hole)																																																																									
SCREEN-PERFORATED INTERVALS: From 15 ft. to 30 ft. From _____ ft. to _____ ft.																																																																																	
From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																	
GRAVEL PACK INTERVALS: From 14 ft. to 30 ft. From _____ ft. to _____ ft.																																																																																	
From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																	
6 GROUT MATERIAL:																																																																																	
1 Neat cement		2 Cement grout		(3) Bentonite		(4) Other concrete, 0-2 feet																																																																											
Grout Intervals From 2 ft. to 14 ft. From _____ ft. to _____ ft.																																																																																	
What is the nearest source of possible contamination:																																																																																	
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens		13 Insecticide Storage																																																																									
2 Sewer lines		5 Cess pool		8 Sewage lagoon		(11) Fuel storage		14 Abandoned water well																																																																									
3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage		15 Oil well/ gas well																																																																									
								16 Other (specify below) _____																																																																									
Direction from well? SE				How many feet? ~90 feet																																																																													
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>FROM</th> <th>TO</th> <th>LITHOLOGIC LOG</th> <th>FROM</th> <th>TO</th> <th>PLUGGING INTERVALS</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>1</td> <td>Asphalt</td> <td></td> <td></td> <td></td> </tr> <tr> <td>3</td> <td>5</td> <td>Clay, dark brown, little silt, moist, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td>8</td> <td>10</td> <td>Very fine sand, some clay, light brown, moist, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td>13</td> <td>15</td> <td>Very fine sand, some clay, brown, moist, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td>18</td> <td>20</td> <td>Very fine sand, some clay, brown, moist, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td>23</td> <td>25</td> <td>Very fine sand, some clay, brown, wet, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td>28</td> <td>30</td> <td>Very fine sand with clay, brown, wet, no odor</td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table>										FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS	0	1	Asphalt				3	5	Clay, dark brown, little silt, moist, no odor				8	10	Very fine sand, some clay, light brown, moist, no odor				13	15	Very fine sand, some clay, brown, moist, no odor				18	20	Very fine sand, some clay, brown, moist, no odor				23	25	Very fine sand, some clay, brown, wet, no odor				28	30	Very fine sand with clay, brown, wet, no odor																											
FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS																																																																												
0	1	Asphalt																																																																															
3	5	Clay, dark brown, little silt, moist, no odor																																																																															
8	10	Very fine sand, some clay, light brown, moist, no odor																																																																															
13	15	Very fine sand, some clay, brown, moist, no odor																																																																															
18	20	Very fine sand, some clay, brown, moist, no odor																																																																															
23	25	Very fine sand, some clay, brown, wet, no odor																																																																															
28	30	Very fine sand with clay, brown, wet, no odor																																																																															
7 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (1) constructed, (2) reconstructed, or (3) plugged under my jurisdiction and was completed on (mo/day/year) 8/25/08 and this record is true to the best of my knowledge and belief.																																																																																	
Kansas Water Well Contractor's License No. 757 . This Water Well Record was completed on (mo/day/year) 9/23/08																																																																																	
under the business name of Larsen & Associates, Inc. by (signature) _____																																																																																	
INSTRUCTIONS: Please fill in blanks or circle the correct answers. Send top three copies to Kansas Department of Health and Environment, Bureau of Water, Geology Section, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367. Telephone 785-296-3523. Send one to WATER WELL OWNER and retain one for your records. Fee of \$5.00 for each constructed well.
