

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																													
County: <u>Wyandotte</u>		NE 1/4 <del>SW</del> 1/4 SE 1/4		13		T 11 S		R 24 <u>EW</u>																																																													
Distance and direction from nearest town or city street address of well if located within city?																																																																					
<u>5000 Kansas Avenue - Kansas City, Kansas 66106</u>																																																																					
2 WATER WELL OWNER: <u>Associated Wholesale Grocers</u>																																																																					
RR#, St. Address, Box # : <u>5000 Kansas Avenue</u>																																																																					
City, State, ZIP Code : <u>Kansas City, Kansas 66106</u>																																																																					
Board of Agriculture, Division of Water Resources Application Number:																																																																					
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: <u>50.5</u> ft. ELEVATION: _____																																																																			
		Depth(s) Groundwater Encountered 1. <u>39.0</u> ft. 2. _____ ft. 3. _____ ft.																																																																			
		WELL'S STATIC WATER LEVEL <u>35.66</u> ft. below land surface measured on mo/day/yr <u>8/16/85</u>																																																																			
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																			
		Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																			
		Bore Hole Diameter <u>6-1/4</u> in. to <u>50.5</u> ft., and _____ in. to _____ ft.																																																																			
WELL WATER TO BE USED AS:																																																																					
5 Public water supply      8 Air conditioning      11 Injection well 1 Domestic      3 Feedlot      6 Oil field water supply      9 Dewatering      12 Other (Specify below) 2 Irrigation      4 Industrial      7 Lawn and garden only      10 Observation well <u>Monitoring</u>																																																																					
Was a chemical/bacteriological sample submitted to Department? Yes _____ No <u>X</u> ; If yes, mo/day/yr sample was submitted																																																																					
Water Well Disinfected? Yes _____ No <u>X</u>																																																																					
5 TYPE OF BLANK CASING USED:																																																																					
1 Steel      3 RMP (SR)      5 Wrought iron      8 Concrete tile      CASING JOINTS: Glued _____ Clamped _____ 2 <u>PVC</u> 4 ABS      6 Asbestos-Cement      9 Other (specify below)      Welded _____ 7 Fiberglass      Threaded <u>X</u>																																																																					
Blank casing diameter <u>2</u> in. to <u>25.2</u> ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																					
Casing height above land surface <u>36</u> in., weight _____ lbs./ft. Wall thickness or gauge No. <u>Sched. 40</u>																																																																					
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																					
1 Steel      3 Stainless steel      5 Fiberglass      7 <u>PVC</u> 10 Asbestos-cement 2 Brass      4 Galvanized steel      6 Concrete tile      8 RMP (SR)      11 Other (specify) _____ 9 ABS      12 None used (open hole)																																																																					
SCREEN OR PERFORATION OPENINGS ARE:																																																																					
1 Continuous slot      3 <u>Mill slot</u> 5 Gauzed wrapped      8 Saw cut      11 None (open hole) 2 Louvered shutter      4 Key punched      6 Wire wrapped      9 Drilled holes 7 Torch cut      10 Other (specify) _____																																																																					
SCREEN-PERFORATED INTERVALS: From <u>25.2</u> ft. to <u>50.5</u> ft., From _____ ft. to _____ ft.																																																																					
GRAVEL PACK INTERVALS: From <u>3.0</u> ft. to <u>50.5</u> ft., From _____ ft. to _____ ft.																																																																					
6 GROUT MATERIAL: 1 Neat cement      2 Cement grout      3 <u>Bentonite</u> 4 Other _____																																																																					
Grout Intervals: From <u>0.0</u> ft. to <u>3.0</u> ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																					
What is the nearest source of possible contamination:																																																																					
1 Septic tank      4 Lateral lines      7 Pit privy      10 Livestock pens      14 Abandoned water well 2 Sewer lines      5 Cess pool      8 Sewage lagoon      11 <u>Fuel storage</u> 15 Oil well/Gas well 3 Watertight sewer lines      6 Seepage pit      9 Feedyard      12 Fertilizer storage      16 Other (specify below) 13 Insecticide storage																																																																					
Direction from well? <u>Southeast</u> How many feet? <u>110'</u>
