THE CITY OF  
**Newton**  
*Kansas*

We located the six (6) inch casing of the abandoned well in question approximately thirty-five (35) feet from the banks in the middle of Sand Creek. The capping of the well was completed on August 28, 1997.

We capped the well in the following procedure:

- a) We used an air compressor with seven (7) feet of three-quarter (3/4) inch pipe surging the line to clear the mud in the well.
- b) We went seven (7) feet below ground level finding only sand. The well was filled with sixty (60) inches of bentonite, a twelve (12) inch concrete cap, and covered with twelve (12) inches of soil.

\* I believe the well had already been plugged previously, all we did was cap it.

*James Flores*

James Flores,  
Water/Wastewater Superintendent

September 03, 1997

I witnessed the cleaning and plugging of the well ~~and~~ and believe the well was not previously plugged. R. Harper
