RE: Continental Coal Inc. – Water Well Plugging Record for Monitoring Wells
GW-7, GW-8 and GW-9 – Linn County, Kansas.

Dear Sirs:

On behalf of Continental Coal, Inc., attached are the plugging records (Forms WWC-5P) for GW-7, GW-8 and GW-9 monitoring wells.

On April 12, 2006 the KDHE Surface Mining Section Office approved Continental Coal's request to remove the monitoring wells. On April 13, 2006, the wells were plugged using neat cement. Soil materials were placed from 3 feet below the surface to the surface then seeded and mulched.

If you have any questions, please call.

Respectfully,

Jim Bentley
Reclamation Specialist
