INACTIVE WATER WELL REQUEST FORM WWC-6 KSA

In accordance with K.A.R. 28-30-7, Landowners may obtain the department's written approval to maintain wells in an inactive status rather than being plugged if the landowner can present evidence to the department as to the condition of the well and as to the landowner's intentions to use the well in the future. As evidence of intentions, the owner shall be responsible for properly maintaining the well in such a way that:

- The well and the annular space between the hole and the casing shall have no defects that will permit the entrance of surface water or vertical movement of subsurface water into the well;
- The well is clearly marked and is not a safety hazard;
- The top of the well is securely capped in a watertight manner and is adequately maintained in such a manner as to prevent easy entry by other than the landowner;
- The area surrounding the well shall be protected from potential sources of contamination within a 50 foot radius;
- If the pump, motor or both, have been removed for repair, replacement, etc., the well shall be maintained to prevent injury to the people and to prevent the entrance of any contaminants or other foreign materials;
- The well shall not be used for disposal or injection of trash, garbage, sewage, wastewater or storm runoff; and
- The well shall be easily accessible to routine maintenance periodic inspection.
