		NW		NE																																																																										
SW		SE																																																																												
Was a chemical/bacteriological sample submitted to Department? Yes <b>X</b> No _____; If yes, mo/day/yr _____																																																																														
Sample was submitted _____ Water Well Disinfected? Yes <b>X</b> No _____																																																																														
<b>5 TYPE OF CASING USED:</b>																																																																														
1 Steel		3 RMP (SR)		5 Wrought Iron		8 Concrete tile																																																																								
<b>2 PVC</b>		4 ABS		6 Asbestos-Cement		9 Other (specify below)																																																																								
		7 Fiberglass				CASING JOINTS: Glued <b>X</b> Clamped																																																																								
						Welded _____																																																																								
						Threaded _____																																																																								
Blank casing diameter <b>5</b> in. to <b>60</b> ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																														
Casing height above land surface <b>12</b> in., Weight <b>2.40</b> lbs./ft. Wall thickness or gauge No. <b>160psi</b>																																																																														
<b>TYPE OF SCREEN OR PERFORATION MATERIAL:</b>																																																																														
1 Steel		3 Stainless steel		5 Fiberglass		<b>7 PVC</b>																																																																								
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																								
						9 ABS																																																																								
						11 Other (specify) _____																																																																								
						10 Asbestos-Cement																																																																								
						12 None used (open hole)																																																																								
<b>SCREEN OR PERFORATION OPENINGS ARE:</b>																																																																														
1 Continuous slot		<b>3</b> Mill slot		5 Guaze wrapped		7 Torch cut																																																																								
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																								
						9 Drilled holes																																																																								
						11 None (open hole)																																																																								
						10 Other (specify) _____																																																																								
<b>SCREEN-PERFORATED INTERVALS:</b>																																																																														
From <b>60</b>		ft. to <b>100</b>		ft. From _____		ft. to _____ ft.																																																																								
From _____		ft. to _____		ft. From _____		ft. to _____ ft.																																																																								
GRAVEL PACK INTERVALS:		From <b>35</b>		ft. to <b>100</b>		ft. From _____																																																																								
		ft. to _____		ft. From _____		ft. to _____ ft.																																																																								
		ft. to _____		ft. From _____		ft. to _____ ft.																																																																								
<b>6 GROUT MATERIAL:</b>																																																																														
1 Neat cement		2 Cement grout		<b>3</b> Bentonite		4 Other _____																																																																								
Grout Intervals From <b>3</b> ft. to <b>35</b> ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																								
What is the nearest source of possible contamination:																																																																														
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																								
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																								
<b>3</b> Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																								
						13 Insecticide Storage																																																																								
						14 Abandoned water well																																																																								
						15 Oil well/ gas well																																																																								
						16 Other (specify below) _____																																																																								
Direction from well? <b>West</b>				How many feet? <b>12ft</b>
