

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																									
County: Sedgwick		NE 1/4 NE 1/4 SW 1/4		28		T 27 S		R 1 EW																																																									
Distance and direction from nearest town or city street address of well if located within city?																																																																	
1205 S. Washington Wichita KS																																																																	
2 WATER WELL OWNER: City of Wichita					Board of Agriculture, Division of Water Resources																																																												
RR#, St. Address, Box # : 1900 E. 9th Street					Application Number:																																																												
City, State, ZIP Code : Wichita KS 67214																																																																	
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:					4 DEPTH OF COMPLETED WELL: 22.6 ft. ELEVATION: N.A.																																																												
					Depth(s) Groundwater Encountered 1. 16 ft. 2. ft. 3. ft.																																																												
					WELL'S STATIC WATER LEVEL N.A. ft. below land surface measured on mo/day/yr																																																												
					Pump test data: Well water was ft. after hours pumping gpm																																																												
					Est. Yield gpm: Well water was ft. after hours pumping gpm																																																												
Bore Hole Diameter 11 in. to ft. and in. to ft.					WELL WATER TO BE USED AS:																																																												
1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)					5 Public water supply 8 Air conditioning 11 Injection well																																																												
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																	
Was a chemical/bacteriological sample submitted to Department? Yes No XX; If yes, mo/day/yr sample was submitted																																																																	
Water Well Disinfected? Yes No XX																																																																	
5 TYPE OF BLANK CASING USED:																																																																	
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued Clamped																																																																	
2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded																																																																	
7 Fiberglass Threaded Flush																																																																	
Blank casing diameter 4 in. to ft. Dia in. to ft. Dia in. to ft.																																																																	
Casing height above land surface Flush in. weight 2 lbs./ft. Wall thickness or gauge No. 25																																																																	
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																	
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																																	
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)																																																																	
12 None used (open hole)																																																																	
SCREEN OR PERFORATION OPENINGS ARE:																																																																	
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																	
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																	
7 Torch cut 10 Other (specify)																																																																	
SCREEN-PERFORATED INTERVALS: From 12.5 ft. to 22.5 ft. From ft. to ft.																																																																	
GRAVEL PACK INTERVALS: From 10.6 ft. to 22.5 ft. From ft. to ft.																																																																	
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																	
Grout Intervals: From 10.6 ft. to 9.0 ft. From 9.0 ft. to 2.0 ft. From ft. to ft.																																																																	
What is the nearest source of possible contamination:																																																																	
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																	
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																	
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																																	
13 Insecticide storage still checking																																																																	
Direction from well? How many feet?
