

1 LOCATION OF WATER WELL: <b>Sedgwick</b>	FRACTION SW 1/4 SE 1/4 SW 1/4	SECTION NUMBER <b>2</b>	TOWNSHIP NUMBER T 27 S	RANGE NUMBER R 2E E/W																																																																																																						
Distance and direction from nearest town or city street address of well if located within city? <b>2210 Rosemont                      Wichita, Kansas</b>																																																																																																										
2 WATER WELL OWNER: <b>SINCLAIR, Tim</b> RR#,ST. ADDRESS,BOX #: <b>2210 Rosemont</b> CITY, STATE: <b>Wichita, Kansas</b>		Board of Agriculture, Division of Water Resource ZIP CODE:                      Application Number:																																																																																																								
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX: <div style="text-align:center; margin-top:10px;"> </div>	4 DEPTH OF COMPLETED WELL: <b>82</b> ft.                      ELEVATION:                      ft.																																																																																																									
	Depth of groundwater Encountered:                      ft. WELL'S STATIC WATER LEVEL <b>20</b> FT. BELOW LAND SURFACE MEASURED ON mo/day/yr: <b>12/21/04</b> Pump test data: Well water was                      ft. after                      hours of pumping @                      gpm Est. Yield:                      gpm                      Well water was                      ft. after                      hours of pumping @                      gpm Bore Hole Diameter <b>12</b> in.                      to <b>82</b> ft.                      and                      in.                      to                      ft.																																																																																																									
WELLS TO BE USED AS: 1. Domestic    3. Feedlot    5. Public water supply <b>7. Lawn and garden only</b> 9. Dewatering    11. Injection well 2. Irrigation    4. Industrial    6. Oil field water supply    8. Air conditioning    10. Monitoring well    12. Other (Specify below) Was a chemical/bacteriological sample submitted to Department? YES <b>NO</b> ; If yes, what mo/day/yr was sample submitted                      Was Water Well Disinfected? <b>YES</b> NO																																																																																																										
5 TYPE OF CASING USED: 1. Steel    3. RPM (SR)    5. Wrought Iron    7. Fiberglass    9. Other (Specify below) CASING JOINTS: <b>Glued</b> Threaded <b>2. PVC</b> 4. ABS    6. Asbestos-Cement    8. Concrete tile    SDR-26    Welded Clamped Blank casing diameter <b>5</b> in.                      to <b>32</b> ft., Dia. in.                      to                      ft., Dia. in.                      to                      ft. Casing height above land surface: <b>12</b> in.,                      Weight: <b>2.35</b> lbs. / ft.                      Wall thickness or gauge No. <b>.214</b> TYPE OF SCREEN OR PERFORATION MATERIAL: 1. Steel    3. Stainless Steel    5. Fiberglass <b>7. PVC</b> 9. ABS    11. Other (specify) 2. Brass    4. Galvanized    6. Concrete Tile    8. RMP (SR)    10. Asbestos-Cement    12. None used (open hole)																																																																																																										
SCREEN OR PERFORATION OPENINGS ARE: 1. Continuous slot    3. Mill slot    5. Gauzed wrapped    7. Torch cut    9. Drilled holes    11. None ( open hole) 2. Louvered shutter    4. Key punched    6. Wire wrapped <b>8. Saw cut</b> 10. Other (specify)																																																																																																										
SCREEN - PERFORATION INTERVAL                      From <b>32</b> ft.                      to <b>82</b> ft.,                      From                      ft.                      to                      ft. From                      ft.                      to                      ft.,                      From                      ft.                      to                      ft. GRAVEL PACK INTERVALS:                      From <b>24</b> ft.                      to <b>82</b> ft.,                      From                      ft.                      to                      ft. From                      ft.                      to                      ft.,                      From                      ft.                      to                      ft.																																																																																																										
6 GROUT MATERIALS: 1. Neat cement    2. Cement Grout    3. Bentonite    Other <b>bentonite hole plug</b> Grout Intervals: From <b>4</b> ft.                      to <b>24</b> ft.,                      From                      ft.                      to                      ft.,                      From                      ft.                      to                      ft. What is the nearest source of possible contamination: 1. Septic tank    4. Lateral lines    7. Pit privy    10. Livestock pens    13. Insecticide storage    15. Oil well/Gas well 2. Sewer lines    5. Cess Pool    8. Sewage lagoon    11. Fuel storage    14. Abandon water well    16. Other (specify below) <b>3. Watertight sewer line</b> 6. Seepage pit    9. Feed yard    12. Fertilizer storage Direction from well? <b>West</b> How many feet? <b>100 +</b>
