

WATER WELL RECORD

Form WWC-5

Division of Water Resources; App. No. _____

1 LOCATION OF WATER WELL:		Fraction		Section Number	Township Number	Range Number																																																																														
County: Sedgwick		SW ¼ SE ¼ SW ¼		33	T 27s S	R 2e E/W																																																																														
Distance and direction from nearest town or city street address of well if located within city? 10026 E Stafford Ct				Global Positioning System (decimal degrees, min. of 4 digits)																																																																																
2 WATER WELL OWNER: Shane Brentwood				Latitude: _____																																																																																
RR#, St. Address, Box # : 10026 E Stafford Ct				Longitude: _____																																																																																
City, State, ZIP Code : Wichita, Ks 67235				Elevation: _____																																																																																
				Datum: _____																																																																																
				Data Collection Method: _____																																																																																
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 85 ft.																																																																																		
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																																		
		WELL'S STATIC WATER LEVEL 28 ft. below land surface measured on mo/day/yr _____																																																																																		
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		Est. Yield 30 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																		
		1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																		
		2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																																		
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No x ; If yes, mo/day/yr _____																																																																																		
		Sample was submitted _____ Water Well Disinfected? Yes x No _____																																																																																		
5 TYPE OF CASING USED:																																																																																				
1 Steel		3 RMP (SR)		5 Wrought Iron		8 Concrete tile																																																																														
2 PVC		4 ABS		6 Asbestos-Cement		9 Other (specify below)																																																																														
				7 Fiberglass		CASING JOINTS: Glued x Clamped _____																																																																														
						Welded _____																																																																														
						Threaded _____																																																																														
Blank casing diameter 5 in. to 25 ft., Dia _____ in. to _____ ft., Dia _____ ft.																																																																																				
Casing height above land surface 12 in., Weight 2.40 lbs./ft. Wall thickness or gauge No. 160psi																																																																																				
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																				
1 Steel		3 Stainless steel		5 Fiberglass		7 PVC																																																																														
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																														
						9 ABS																																																																														
						11 Other (specify)																																																																														
						10 Asbestos-Cement																																																																														
						12 None used (open hole)																																																																														
SCREEN OR PERFORATION OPENINGS ARE:																																																																																				
1 Continuous slot		3 Mill slot		5 Guaze wrapped		7 Torch cut																																																																														
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																														
						9 Drilled holes																																																																														
						11 None (open hole)																																																																														
						10 Other (specify)																																																																														
SCREEN-PERFORATED INTERVALS:																																																																																				
From 25 ft. to 85 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
GRAVEL PACK INTERVALS:																																																																																				
From 28 ft. to 85 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
6 GROUT MATERIAL:																																																																																				
1 Neat cement		2 Cement grout		3 Bentonite		4 Other																																																																														
Grout Intervals From 3 ft. to 28 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
What is the nearest source of possible contamination:																																																																																				
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																														
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																														
3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																														
						13 Insecticide Storage																																																																														
						14 Abandoned water well																																																																														
						15 Oil well/ gas well																																																																														
						16 Other (specify below)																																																																														
Direction from well? east						How many feet? 22																																																																														
<table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th>FROM</th> <th>TO</th> <th>LITHOLOGIC LOG</th> <th>FROM</th> <th>TO</th> <th>PLUGGING INTERVALS</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>1</td> <td>Top Soil</td> <td></td> <td></td> <td></td> </tr> <tr> <td>1</td> <td>55</td> <td>clay</td> <td></td> <td></td> <td></td> </tr> <tr> <td>55</td> <td>60</td> <td>limestone</td> <td></td> <td></td> <td></td> </tr> <tr> <td>60</td> <td>85</td> <td>Gypsum rock</td> <td></td> <td></td> <td></td> </tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>							FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS	0	1	Top Soil				1	55	clay				55	60	limestone				60	85	Gypsum rock																																																			
FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS																																																																															
0	1	Top Soil																																																																																		
1	55	clay																																																																																		
55	60	limestone																																																																																		
60	85	Gypsum rock																																																																																		
7 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (1) constructed, (2) reconstructed, or (3) plugged under my jurisdiction and was completed on (mo/day/year) 6-19-07 and this record is true to the best of my knowledge and belief.																																																																																				
Kansas Water Well Contractor's License No. 740 This Water Well Record was completed on (mo/day/year) 6-19-07																																																																																				
under the business name of Weninger Drilling Inc. by (signature) _____																																																																																				
INSTRUCTIONS: Please fill in blanks or circle the correct answers. Send top three copies to Kansas Department of Health and Environment, Bureau of Water, Geology Section, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367. Telephone 785-296-5522. Send one to WATER WELL OWNER and retain one for your records. Fee of \$5.00 for each constructed well.
