

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																					
County: Sedgwick		NE 1/4 NW 1/4 SE 1/4		20		T 27 S		R 2 EW																																																																																					
Distance and direction from nearest town or city street address of well if located within city?								01918013 MW-2																																																																																					
1540' West of Intersection of Douglas Avenue & Webb Road Also 225' South of Centerline of Douglas Avenue																																																																																													
2 WATER WELL OWNER: Pizza Hut, Inc.																																																																																													
RR#, St. Address, Box # : 9111 East Douglas Avenue Board of Agriculture, Division of Water Resources																																																																																													
City, State, ZIP Code : Wichita, KS 67207 Application Number:																																																																																													
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:			4 DEPTH OF COMPLETED WELL: 29 ft. ELEVATION: 1360.4 GL																																																																																										
			Depth(s) Groundwater Encountered 1. Dry ft. 2. ft. 3. ft.																																																																																										
			WELL'S STATIC WATER LEVEL Dry ft. below land surface measured on mo/day/yr 02/04/92																																																																																										
			Pump test data: Well water was ft. after hours pumping gpm																																																																																										
			Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																																										
			Bore Hole Diameter in. to ft., and in. to ft.																																																																																										
WELL WATER TO BE USED AS:																																																																																													
5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																													
Was a chemical/bacteriological sample submitted to Department? Yes No X; If yes, mo/day/yr sample was submitted																																																																																													
Water Well Disinfected? Yes No X																																																																																													
5 TYPE OF BLANK CASING USED:																																																																																													
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded X																																																																																													
Blank casing diameter 2 in. to 14 ft., Dia in. to ft., Dia in. to ft.																																																																																													
Casing height above land surface in., weight lbs./ft. Wall thickness or gauge No.																																																																																													
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																													
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) 12 None used (open hole)																																																																																													
SCREEN OR PERFORATION OPENINGS ARE:																																																																																													
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																																																													
SCREEN-PERFORATED INTERVALS: From 14 ft. to 29 ft., From ft. to ft.																																																																																													
GRAVEL PACK INTERVALS: From 12 ft. to 29 ft., From ft. to ft.																																																																																													
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																													
Grout intervals: From 1 ft. to 12 ft., From ft. to ft., From ft. to ft.																																																																																													
What is the nearest source of possible contamination:																																																																																													
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																																																													
Direction from well? 25' South How many feet?
