4 DEPTH OF COMPLETED WELL		23 ft. ELEVATION:																																								
Depth(s) Groundwater Encountered 1 17 ft. 2 ft. 3 ft.		9/4/08																																								
WELL'S STATIC WATER LEVEL 11.29 ft. below land surface measured on mo/day/																																										
Pump test data: Well water was ft. after hours pumping gpm																																										
Est. Yield gpm: Well water was ft. after hours pumping gpm																																										
Bore Hole Diameter 8 in. to 23 ft. and in. to ft.																																										
WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																										
1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																										
2 Irrigation 4 Industrial 7 Lawn and garden (domestic) 10 Monitoring well																																										
Was a chemical/bacteriological sample submitted to Department? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> If yes, mo/day/yr sample was submitted																																										
Water Well Disinfected? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>																																										
5 TYPE OF BLANK CASING USED:			CASING JOINTS: Glued <input type="checkbox"/> Clamped <input type="checkbox"/>																																							
1 Steel 3 RMP (SR)		5 Wrought Iron 8 Concrete tile		6 Asbestos-Cement 9 Other (specify below)		Welded <input type="checkbox"/> Threaded <input checked="" type="checkbox"/>																																				
<input checked="" type="checkbox"/> 2 PVC 4 ABS		7 Fiberglass																																								
Blank casing diameter 2 in. to 18 ft., Dia			in. to ft., Dia in. to ft.																																							
Casing height above land surface 24 in., weight 0.682			lbs./ft. Wall thickness or gauge No. 0.1875 in.																																							
TYPE OF SCREEN OR PERFORATION MATERIAL:																																										
1 Steel 3 Stainless steel		5 Fiberglass 8 RMP (SR)		7 PVC 10 Asbestos-cement																																						
2 Brass 4 Galvanized steel		6 Concrete tile 9 ABS		11 Other (specify) 12 None used (open hole)																																						
SCREEN OR PERFORATION OPENINGS ARE:																																										
1 Continuous slot 3 Mill slot		5 Gauzed wrapped 6 Wire wrapped		8 Saw cut 9 Drilled holes		11 None (open hole)																																				
2 Louvered shutter 4 Key punched		7 Torch cut		10 Other (specify)																																						
SCREEN-PERFORATED INTERVALS: From 18 ft. to 23 ft.			From ft. to ft.																																							
GRAVEL PACK INTERVALS: From 16 ft. to 23 ft.			From ft. to ft.																																							
From ft. to ft.			From ft. to ft.																																							
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																										
Grout Intervals From 0 ft. to 16 ft. From ft. to ft. From ft. to ft.																																										
What is the nearest source of possible contamination:																																										
1 Septic tank 4 Lateral lines		7 Pit privy 8 Sewage lagoon		10 Livestock pens 11 Fuel storage		14 Abandoned water well 15 Oil well/ Gas well																																				
2 Sewer lines 5 Cess pool		9 Feedyard		12 Fertilizer storage 13 Insecticide storage		16 Other (specify below) former pond area																																				
3 Watertight sewer lines 6 Seepage pit																																										
Direction from well? E How many feet? approximately 20																																										
FROM	TO	CODE	LITHOLOGIC LOG		FROM	TO	PLUGGING INTERVALS																																			
0	10	01	Very dark brown to black clay																																							
10	20	03	Very dark gray, silty, lean clay																																							
20	21	07	Very dark gray, clayey, fine sand																																							
21	23	14	Weathered limestone gravel																																							
23	23	20	Limestone																																							
7 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (1) constructed, (2) reconstructed, or (3) plugged under my jurisdiction and was completed on (mo/day/yr) 8/28/08 and this record is true to the best of my knowledge and belief. Kansas Water Well Contractor's License No. 616 This Water Well Record was completed on (mo/day/yr) 3/19/09 under the business name of Thiele Geotech, Inc. by (signature) 																																										
INSTRUCTIONS: Please fill in blanks and circle the correct answers. Send three copies to Kansas Department of Health and Environment, Bureau of Water, Topeka, Kansas 66620-0001. Telephone: 913-296-5545. Send one to WATER WELL OWNER and retain one for your records.
