

WATER WELL RECORD

Form WWC-5

Division of Water Resources; App. No. _____

1 LOCATION OF WATER WELL:		Fraction		Section Number	Township Number	Range Number																																																																														
County: Sedgwick		ne ¼ se ¼ se ¼		20	T 28S S	R 1E E/W																																																																														
Distance and direction from nearest town or city street address of well if located within city? 101 W 53rd ct S Wichita, Ks				Global Positioning System (decimal degrees, min. of 4 digits)																																																																																
2 WATER WELL OWNER: Art Sabastian RR#, St. Address, Box # : 101 W 53rd ct S City, State, ZIP Code : Wichita, Ks.				Latitude: _____																																																																																
				Longitude: _____																																																																																
				Elevation: _____																																																																																
				Datum: _____																																																																																
Data Collection Method: _____																																																																																				
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 56 ft.																																																																																		
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																																		
		WELL'S STATIC WATER LEVEL 24 ft. below land surface measured on mo/day/yr 4/11/10																																																																																		
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		Est. Yield 30 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																		
		1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																		
		2 Irrigation 4 Industrial X Domestic (lawn & garden) 10 Monitoring well																																																																																		
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No X ; If yes, mo/day/yr																																																																																		
		Sample was submitted _____ Water Well Disinfected? Yes X No _____																																																																																		
5 TYPE OF CASING USED:																																																																																				
1 Steel		3 RMP (SR)		5 Wrought Iron		8 Concrete tile																																																																														
X 2 PVC		4 ABS		6 Asbestos-Cement		9 Other (specify below)																																																																														
		7 Fiberglass				CASING JOINTS: Glued X Clamped _____																																																																														
						Welded _____																																																																														
						Threaded _____																																																																														
Blank casing diameter 5 in. to 46 ft., Dia				in. to _____ ft., Dia		in. to _____ ft.																																																																														
Casing height above land surface 12 in., Weight 2.4 lbs./ft.				Wall thickness or gauge No. 160 psi																																																																																
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																				
1 Steel		3 Stainless steel		5 Fiberglass		X 6 PVC																																																																														
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																														
				9 ABS		11 Other (specify)																																																																														
				10 Asbestos-Cement		12 None used (open hole)																																																																														
SCREEN OR PERFORATION OPENINGS ARE:																																																																																				
1 Continuous slot		X 2 Mill slot		5 Gauge wrapped		7 Torch cut																																																																														
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																														
						9 Drilled holes																																																																														
						11 None (open hole)																																																																														
SCREEN-PERFORATED INTERVALS:																																																																																				
From 46 ft. to 56 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
GRAVEL PACK INTERVALS:		From 24 ft. to 56 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
6 GROUT MATERIAL:																																																																																				
1 Neat cement		2 Cement grout		X 3 Bentonite		4 Other _____																																																																														
Grout Intervals From 2 ft. to 24 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																														
What is the nearest source of possible contamination:																																																																																				
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																														
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																														
X 3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																														
						13 Insecticide Storage																																																																														
						14 Abandoned water well																																																																														
						15 Oil well/ gas well																																																																														
Direction from well? East				How many feet? 37		16 Other (specify below)																																																																														
<table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th>FROM</th> <th>TO</th> <th>LITHOLOGIC LOG</th> <th>FROM</th> <th>TO</th> <th>PLUGGING INTERVALS</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>3</td> <td>Topsoil</td> <td></td> <td></td> <td></td> </tr> <tr> <td>3</td> <td>23</td> <td>Brown Clay</td> <td></td> <td></td> <td></td> </tr> <tr> <td>23</td> <td>46</td> <td>Fine sand</td> <td></td> <td></td> <td></td> </tr> <tr> <td>46</td> <td>56</td> <td>Med Sand</td> <td></td> <td></td> <td></td> </tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>							FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS	0	3	Topsoil				3	23	Brown Clay				23	46	Fine sand				46	56	Med Sand																																																			
FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS																																																																															
0	3	Topsoil																																																																																		
3	23	Brown Clay																																																																																		
23	46	Fine sand																																																																																		
46	56	Med Sand																																																																																		
7 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (X) constructed, (2) reconstructed, or (3) plugged under my jurisdiction and was completed on (mo/day/year) 4/14/10 and this record is true to the best of my knowledge and belief.																																																																																				
Kansas Water Well Contractor's License No. 740 . This Water Well Record was completed on (mo/day/year) 5/10/10																																																																																				
under the business name of Weninger Drilling Inc by (signature) _____																																																																																				
INSTRUCTIONS: Please fill in blanks or circle the correct answers. Send top three copies to Kansas Department of Health and Environment, Bureau of Water, Geology Section, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367. Telephone 785-296-5522. Send one to WATER WELL OWNER and retain one for your records. Fee of \$5.00 for each constructed well.
