

1 LOCATION OF WATER WELL:		Fraction	Section Number		Township Number	Range Number																																																																																																																																																	
County: Sedgwick		SW ¼ NE ¼ SE ¼	25		T 28 S	R 1 E EW																																																																																																																																																	
Distance and direction from nearest town or city street address of well if located within city? 6100 E. 60th St. S., Wichita, KS.																																																																																																																																																							
2 WATER WELL OWNER: Steve Logue RR#, St. Address, Box #: Rt. #2, Box 184-3 City, State, ZIP Code : Derby, KS. Board of Agriculture, Division of Water Resources Application Number:																																																																																																																																																							
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:	4 DEPTH OF COMPLETED WELL .80 ft. ELEVATION:																																																																																																																																																						
	Depth(s) Groundwater Encountered 1. 38 ft. 2. ft. 3. ft.																																																																																																																																																						
	WELL'S STATIC WATER LEVEL 38 ft. below land surface measured on mo/day/yr 4-21-87																																																																																																																																																						
	Pump test data: Well water was ft. after hours pumping gpm																																																																																																																																																						
	Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																																																																																																						
	Bore Hole Diameter .11 in. to ft. and in. to ft.																																																																																																																																																						
WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well <u>1 Domestic</u> 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Observation well																																																																																																																																																							
Was a chemical/bacteriological sample submitted to Department? Yes.....No... <u>X</u> If yes, mo/day/yr sample was submitted _____ Water Well Disinfected? Yes <u>X</u> No																																																																																																																																																							
5 TYPE OF BLANK CASING USED:																																																																																																																																																							
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued <u>X</u> Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded, Cer-Mac Styrene - SDR-26 Threaded.....																																																																																																																																																							
Blank casing diameter 5 in. to 55 ft., Dia ... in. to ft., Dia ... in. to ft.																																																																																																																																																							
Casing height above land surface 12 in., weight 1.59 lbs./ft. Wall thickness or gauge No. 203																																																																																																																																																							
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																																																																							
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) 12 None used (open hole)																																																																																																																																																							
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																																																																							
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																																																																																																																							
SCREEN-PERFORATED INTERVALS: From 55 ft. to 80 ft., From ft. to ft.																																																																																																																																																							
GRAVEL PACK INTERVALS: From 14 ft. to 80 ft., From ft. to ft.																																																																																																																																																							
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																																																																																							
Grout Intervals: From 4 ft. to 14 ft., From ft. to ft., From ft. to ft.																																																																																																																																																							
What is the nearest source of possible contamination: 1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage NONE APPARENT																																																																																																																																																							
Direction from well? How many feet?
