

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																																
County: Sedgwick		$\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$	6	T 28 S	R 2 E																																																																																																
Distance and direction from nearest town or city street address of well if located within city? 931 ARG, McConnell Air Force Base, Wichita, Kansas																																																																																																					
2 WATER WELL OWNER: McConnell Air Force Base 22 CES/CED																																																																																																					
RR#, St. Address, Box # : 5300 Hutchinson St. Suite 109			Board of Agriculture, Division of Water Resources																																																																																																		
City, State, ZIP Code : Wichita, KS 67221-3617			Application Number:																																																																																																		
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 25 ft. ELEVATION: 0																																																																																																			
		Depth(s) Groundwater Encountered 1. 21 ft. 2. 21 ft. 3. 21 ft.																																																																																																			
		WELL'S STATIC WATER LEVEL 21 ft. below land surface measured on mo/day/yr																																																																																																			
		Pump test data: Well water was NA ft. after NA hours pumping NA gpm																																																																																																			
		Est. Yield NA gpm: Well water was NA ft. after NA hours pumping NA gpm																																																																																																			
		Bore Hole Diameter 2 in. to 40 ft., and 40 in. to 40 ft.																																																																																																			
WELL WATER TO BE USED AS:		5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																																			
Was a chemical/bacteriological sample submitted to Department? Yes ☐ No ☒		If yes, mo/day/yr sample was submitted																																																																																																			
Water Well Disinfected? Yes ☐ No ☒																																																																																																					
5 TYPE OF BLANK CASING USED:																																																																																																					
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile		CASING JOINTS: Glued ☐ Clamped ☐																																																																																																			
2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below)		Welded ☐																																																																																																			
Blank casing diameter 2 in. to 5 ft. Dia. 2 in. to 5 ft. Dia. 2 in. to 5 ft.		Threaded ☒																																																																																																			
Casing height above land surface 24 in., weight 24 lbs./ft. Wall thickness or gauge No. Sch 40																																																																																																					
TYPE OF SCREEN OR PERFORATION MATERIAL																																																																																																					
1 Steel 3 Stainless steel 5 Fiberglass 7 PVC 10 Asbestos-cement																																																																																																					
2 Brass 4 Galvanized steel 6 Concrete tile 8 RMP (SR) 11 Other (specify) ☐																																																																																																					
SCREEN OR PERFORATION OPENINGS ARE:		12 None used (open hole)																																																																																																			
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																																																					
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																																																					
SCREEN-PERFORATED INTERVALS: From 5 ft. to 25 ft. From 5 ft. to 25 ft.																																																																																																					
GRAVEL PACK INTERVALS: From 3 ft. to 27 ft. From 3 ft. to 27 ft.																																																																																																					
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																																					
Grout intervals: From 0 ft. to 0.5 ft. From 0.5 ft. to 3 ft. From 27 ft. to 40 ft.																																																																																																					
What is the nearest source of possible contamination:																																																																																																					
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																																																					
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																																																					
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)		Air Force Base																																																																																																			
Direction from well? Unknown		How many feet?
