

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																																																														
County: <u>Sedgwick</u>		<u>NE 1/4 NW 1/4 NW 1/4</u>	<u>11</u>	T <u>28</u> (S)	R <u>2</u> (EW)																																																																																																																														
Distance and direction from nearest town or city street address of well if located within city? <u>150' East of R 31st + 127th E., Wichita</u> <u>RW-2d</u>																																																																																																																																			
2 WATER WELL OWNER: <u>Conoco, Inc.</u> RR#, St. Address, Box # : <u>P.O. Box 2197</u> City, State, ZIP Code : <u>Houston, TX 77252</u> Board of Agriculture, Division of Water Resources Application Number:																																																																																																																																			
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: <u>80</u> ft. ELEVATION:																																																																																																																																	
		Depth(s) Groundwater Encountered 1. <u>68</u> ft. 2. <u>77.5</u> ft. 3. _____ ft.																																																																																																																																	
		WELL'S STATIC WATER LEVEL _____ ft. below land surface measured on mo/day/yr																																																																																																																																	
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																																																																	
		Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																																																																	
		Bore Hole Diameter <u>12</u> in. to <u>54</u> ft., and <u>8"</u> in. to <u>81</u> ft.																																																																																																																																	
WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well <u>Recovery well</u>																																																																																																																																			
Was a chemical/bacteriological sample submitted to Department? Yes _____ No <u>X</u> ; If yes, mo/day/yr sample was submitted _____ Water Well Disinfected? Yes _____ No <u>X</u>																																																																																																																																			
5 TYPE OF BLANK CASING USED:																																																																																																																																			
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued _____ Clamped _____ 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded _____ 7 Fiberglass Threaded <u>X</u>																																																																																																																																			
Blank casing diameter <u>8</u> in. to <u>54</u> ft., Dia. <u>4</u> in. to <u>0-64.4</u> ft., Dia. _____ in. to _____ ft.																																																																																																																																			
Casing height above land surface <u>31.2</u> in., weight <u>2.0</u> lbs./ft. Wall thickness or gauge No. <u>3/4</u> <u>40</u>																																																																																																																																			
TYPE OF SCREEN OR PERFORATION MATERIAL: <u>PVC</u> 10 Asbestos-cement 1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 11 Other (specify) _____ 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 12 None used (open hole)																																																																																																																																			
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																																																			
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify) _____																																																																																																																																			
SCREEN-PERFORATED INTERVALS: From <u>64.4</u> ft. to <u>80</u> ft., From _____ ft. to _____ ft. From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																																																			
GRAVEL PACK INTERVALS: From <u>63</u> ft. to <u>80</u> ft., From _____ ft. to _____ ft. From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																																																			
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other _____																																																																																																																																			
Grout intervals: From <u>0</u> ft. to <u>63</u> ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																																																			
What is the nearest source of possible contamination:																																																																																																																																			
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage <u>Petroleum Pipeline</u>																																																																																																																																			
Direction from well? <u>West</u> How many feet? <u>100'</u>
