RE: Water Well Plugging Report

To Whom It May Concern:

Enclosed is a completed *Water Well Plugging Record* for a water "well" that was completely eradicated during the course of highway construction on K-99 in Elk County. State highway K-99 is being reconstructed from approximately 1 mile south of US-400 to approximately ½ mile north of Howard, KS. The Kansas Department of Transportation's plans called for the "plugging" of five existing water wells along the 10-mile project corridor. The wells are not truly wells, but rock-lined, hand-dug cisterns used for water storage. They are being completely be removed via excavation and backfill.

If you have any questions or need additional information, please do not hesitate to call.

Sincerely,

Alan G. Farrington, P.E.
