

Division of Water Resources; App. No.

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																				
County: Sedgwick	se ¼ sw ¼ ne ¼	32	T 29S S	R 2E E/W																																																																																					
Distance and direction from nearest town or city street address of well if located within city? 911 N Cedar Brook Cir			Global Positioning System (decimal degrees, min. of 4 digits) Latitude: _____ Longitude: _____ Elevation: _____ Datum: _____ Data Collection Method: _____																																																																																						
2 WATER WELL OWNER: Jerry Gardner RR#, St. Address, Box # : 911 N Cedar Brook Circle City, State, ZIP Code : Mulvane, Ks 67110																																																																																									
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 90 ft.																																																																																							
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft. WELL'S STATIC WATER LEVEL 22 ft. below land surface measured on mo/day/yr _____ Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm Est. Yield 20 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																																							
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No x ; If yes, mo/day/yrs Sample was submitted _____ Water Well Disinfected? Yes x No _____																																																																																							
5 TYPE OF CASING USED:																																																																																									
1 Steel 2 PVC Blank casing diameter 5 in. to 30 ft., Dia Casing height above land surface 12 in., Weight 2.40 lbs./ft. Wall thickness or gauge No. 160psi		3 RMP (SR) 4 ABS 5 Wrought Iron 6 Asbestos-Cement 7 Fiberglass 8 Concrete tile 9 Other (specify below) CASING JOINTS: Glued x Clamped Welded Threaded																																																																																							
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																									
1 Steel 3 Stainless steel 5 Fiberglass 7 PVC 9 ABS 11 Other (specify) 2 Brass 4 Galvanized steel 6 Concrete tile 8 RM (SR) 10 Asbestos-Cement 12 None used (open hole)																																																																																									
SCREEN OR PERFORATION OPENINGS ARE:																																																																																									
1 Continuous slot 3 Mill slot 5 Gauge wrapped 7 Torch cut 9 Drilled holes 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 8 Saw Cut 10 Other (specify)																																																																																									
SCREEN-PERFORATED INTERVALS:																																																																																									
		From 60 ft. to 90 ft. From _____ ft. to _____ ft.																																																																																							
		From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																							
GRAVEL PACK INTERVALS:		From 22 ft. to 90 ft. From _____ ft. to _____ ft.																																																																																							
		From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																							
6 GROUT MATERIAL:																																																																																									
1 Neat cement 2 Cement grout 3 Bentonite 4 Other _____ Grout Intervals From 3 ft. to 22 ft. From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																									
What is the nearest source of possible contamination:																																																																																									
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 13 Insecticide Storage 16 Other (specify below) 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 14 Abandoned water well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 15 Oil well/ gas well																																																																																									
Direction from well? west How many feet? 65ft
