

1) LOCATION OF WATER WELL:		Fraction	Township Number	Range Number																																																																																																
County: Sedgwick	SE ¼ SE ¼ SE ¼	6	T 29 S	R 2 E IV																																																																																																
Distance and direction from nearest town or city street address of well if located within city?																																																																																																				
601 N. Rock Rd., Derby																																																																																																				
2) WATER WELL OWNER: Mohammed A. Saeed RR#, St. Address, Box # : 10629 Glass Mountain Trail City, State, ZIP Code : Austin, TX 78750-2502 Board of Agriculture, Division of Water Resources Application Number:																																																																																																				
3) LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX: 		4) DEPTH OF COMPLETED WELL 25 ft. ELEVATION: 1285.42																																																																																																		
		Depth(s) Groundwater Encountered 1.....ft. 2.....ft. 3.....ft.																																																																																																		
		WELL'S STATIC WATER LEVEL ft. below land surface measured on mo/day/yr																																																																																																		
		Pump test data: Well water was NA ft. after hours pumping gpm																																																																																																		
		Est. Yield NA gpm: Well water was ft. after hours pumping gpm																																																																																																		
		Bore Hole Diameter 8 in. to 25 ft., and in. to ft.																																																																																																		
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																																		
		1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																																		
		2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																																		
		Was a chemical/bacteriological sample submitted to Department? Yes.....No✓ ; If yes, mo/day/yr sample was submitted																																																																																																		
		Water Well Disinfected? Yes No ✓																																																																																																		
5) TYPE OF BLANK CASING USED:																																																																																																				
1 Steel 3 RMP (SR) 2 PVC 4 ABS Blank casing diameter 2 in. to 10 ft. Dia in. to ft. Dia in. to ft. Casing height above land surface -5.76 in., weight lbs./ft. Wall thickness or gauge No. Sch. 40																																																																																																				
TYPE OF SCREEN OR PERFORATION MATERIAL																																																																																																				
1 Steel 3 Stainless steel 5 Fiberglass 7 PVC 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 8 RMP (SR) 11 Other (specify) SCREEN OR PERFORATION OPENINGS ARE: 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 1 Continuous slot 3 Mill slot 6 Wire wrapped 9 Drilled holes 2 Louvered shutter 4 Key punched 7 Torch cut 10 Other (specify)																																																																																																				
SCREEN-PERFORATED INTERVALS: From 10 ft. to 25 ft. From ft. to ft.																																																																																																				
GRAVEL PACK INTERVALS: From 8 ft. to 25 ft. From ft. to ft.																																																																																																				
6) GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																																				
Grout Intervals: From 1 ft. to 8 ft. From ft. to ft. From ft. to ft.																																																																																																				
What is the nearest source of possible contamination:																																																																																																				
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																																																																				
Direction from well? How many feet?
