FROM	TO	LITHOLOGIC LOG	FROM	TO	LITHOLOGIC LOG
60-80	3-10 CEMENT	This well was drilled by another driller and we do not have a true and accurate log. The land owner, Basil Bryant did not receive a WWC-5 form. However the well that I drilled and completed on 7-15-86 was drilled very close to this well, so the formation will be the same or most likely quite similar.			
		It was my understanding that drill tools were left at the bottom of this well. Very little cement was around the casing and the well was dry at the time it was plugged.			
		This well in my opinion should have been plugged before it was abandoned and certainly it should have never been cased.			

7 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (1) constructed, (2) reconstructed, or  plugged under my jurisdiction and was completed on (mo/day/year) 7/13/86 and this record is true to the best of my knowledge and belief.
