

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																										
County: <u>Sheldon</u>		<u>SW 1/4 NE 1/4 NE 1/4</u>	<u>32</u>	T <u>10</u>	R <u>30</u>																																																																																										
Distance and direction from nearest town or city street address of well if located within city? <u>3 S of Angelus</u>																																																																																															
2 WATER WELL OWNER: HAROLD BAALMAN																																																																																															
RR#, St. Address, Box # :				Board of Agriculture, Division of Water Resources																																																																																											
City, State, ZIP Code : GRINNELL, KANSAS 67738				Application Number:																																																																																											
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL <u>208</u> ft. ELEVATION: <u>110</u> ft.																																																																																													
<div style="text-align: center;"> N W E S</div>		Depth(s) Groundwater Encountered 1. <u>110</u> ft. 2. <u>110</u> ft. 3. <u>110</u> ft.																																																																																													
		WELL'S STATIC WATER LEVEL <u>110</u> ft. below land surface measured on mo/day/yr																																																																																													
		Pump test data: Well water was <u>25</u> gpm. Well water was <u>208</u> ft. after <u>9</u> hours pumping <u>25</u> gpm																																																																																													
		Bore Hole Diameter <u>9</u> in. to <u>208</u> ft., and <u>9</u> in. to <u>208</u> ft.																																																																																													
WELL WATER TO BE USED AS:		5 Public water supply 8 Air conditioning 11 Injection well																																																																																													
1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																															
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Observation well																																																																																															
Was a chemical/bacteriological sample submitted to Department? Yes <u>X</u> No <u>X</u> ; If yes, mo/day/yr sample was submitted																																																																																															
Water Well Disinfected? Yes <u>X</u> No <u>X</u>																																																																																															
5 TYPE OF BLANK CASING USED:																																																																																															
1 Steel 3 RMP (SR)		5 Wrought iron 8 Concrete tile		CASING JOINTS: Glued <u>X</u> Clamped <u>X</u>																																																																																											
2 PVC 4 ABS		6 Asbestos-Cement 9 Other (specify below)		Welded <u>X</u>																																																																																											
Blank casing diameter <u>5</u> in. to <u>198</u> in. Dia <u>250</u> in. to <u>250</u> in. Dia <u>250</u> in. to <u>250</u> in. Dia		7 Fiberglass		Threaded <u>X</u>																																																																																											
Casing height above land surface <u>12</u> in. weight <u>250</u> lbs./ft. Wall thickness or gauge No. <u>250</u>																																																																																															
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																															
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 11 Other (specify) <u>7 PVC</u> 10 Asbestos-cement																																																																																															
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 12 None used (open hole)																																																																																															
SCREEN OR PERFORATION OPENINGS ARE:																																																																																															
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																																															
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																																															
SCREEN-PERFORATED INTERVALS: From <u>198</u> ft. to <u>208</u> ft. From <u>198</u> ft. to <u>208</u> ft. From <u>198</u> ft. to <u>208</u> ft. From <u>198</u> ft. to <u>208</u> ft.																																																																																															
GRAVEL PACK INTERVALS: From <u>110</u> ft. to <u>208</u> ft. From <u>110</u> ft. to <u>208</u> ft. From <u>110</u> ft. to <u>208</u> ft. From <u>110</u> ft. to <u>208</u> ft.																																																																																															
6 GROUT MATERIAL:																																																																																															
1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																															
Grout Intervals: From <u>0</u> ft. to <u>20</u> ft. From <u>0</u> ft. to <u>20</u> ft. From <u>0</u> ft. to <u>20</u> ft. From <u>0</u> ft. to <u>20</u> ft.																																																																																															
What is the nearest source of possible contamination:																																																																																															
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																																															
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																																															
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																																																															
Direction from well? <u>East</u>		How many feet? <u>300</u>
