

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																											
County: <u>Thomas</u>		<u>SE 1/4 SE 1/4 NE 1/4</u>		<u>2</u>		<u>T 10 S</u>		<u>R 32 E/W</u>																																																																																											
Distance and direction from nearest town or city street address of well if located within city? <u>5 north 1 east 1/2 north of Oakley</u>																																																																																																			
2 WATER WELL OWNER: <u>Mark Robben</u>																																																																																																			
RR#, St. Address, Box # : <u>Rt 2</u>																																																																																																			
City, State, ZIP Code : <u>Oakley, Ks 67748</u>																																																																																																			
Board of Agriculture, Division of Water Resources Application Number:																																																																																																			
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL <u>210</u> ft. ELEVATION:																																																																																																	
		Depth(s) Groundwater Encountered 1. _____ ft. 2. _____ ft. 3. _____ ft.																																																																																																	
		WELL'S STATIC WATER LEVEL <u>140</u> ft. below land surface measured on mo/day/yr <u>4-9-92</u>																																																																																																	
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																																	
		Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																																	
		Bore Hole Diameter <u>8</u> in. to <u>210</u> ft. and _____ in. to _____ ft.																																																																																																	
WELL WATER TO BE USED AS:																																																																																																			
1 Domestic 3 Feedlot 5 Public water supply 8 Air conditioning 11 Injection well 2 Irrigation 4 Industrial 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																																			
Was a chemical/bacteriological sample submitted to Department? Yes _____ No <u>X</u> _____; If yes, mo/day/yr sample was submitted _____																																																																																																			
Water Well Disinfected? Yes <u>X</u> No																																																																																																			
5 TYPE OF BLANK CASING USED:																																																																																																			
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued <u>X</u> Clamped _____ 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded _____ 7 Fiberglass Threaded _____																																																																																																			
Blank casing diameter _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																																			
Casing height above land surface _____ in., weight _____ lbs./ft. Wall thickness or gauge No <u>1/4</u> "																																																																																																			
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																			
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) _____ 12 None used (open hole)																																																																																																			
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																			
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify) _____																																																																																																			
SCREEN-PERFORATED INTERVALS: From <u>190</u> ft. to <u>210</u> ft., From _____ ft. to _____ ft.																																																																																																			
GRAVEL PACK INTERVALS: From <u>18</u> ft. to <u>210</u> ft., From _____ ft. to _____ ft.																																																																																																			
6 GROUT MATERIAL: <u>1 Neat cement</u> 2 Cement grout 3 Bentonite 4 Other _____																																																																																																			
Grout Intervals: From <u>4</u> ft. to <u>18</u> ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																			
What is the nearest source of possible contamination:																																																																																																			
1 <u>Septic tank</u> 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) _____ 13 Insecticide storage																																																																																																			
Direction from well? <u>S.E.</u> How many feet? <u>300</u>
