

1 LOCATION OF WATER WELL:		Fraction SE 1/4 SW 1/4 SE 1/4		Section Number 15		Township Number T 14 S		Range Number R 3 EW																																																																																																	
Distance and direction from nearest town or city street address of well if located within city? 671 Westport Blvd., Salina, Ks. 67401 MW 8																																																																																																									
2 WATER WELL OWNER: Midway USA Conoco																																																																																																									
RR#, St. Address, Box # : 671 Westport					Board of Agriculture, Division of Water Resources																																																																																																				
City, State, ZIP Code : Salina, Ks. 67401					Application Number:																																																																																																				
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL . 37 . ft. ELEVATION:																																																																																																							
		Depth(s) Groundwater Encountered 1. 30 . ft. 2. ft. 3. ft.																																																																																																							
		WELL'S STATIC WATER LEVEL . 20.92 . ft. below land surface measured on mo/day/yr 2-25-92																																																																																																							
		Pump test data: Well water was ft. after hours pumping gpm																																																																																																							
		Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																																																							
		Bore Hole Diameter 7 5/8 . in. to . 37 . ft., and in. to ft.																																																																																																							
WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																																									
1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																																									
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																																									
Was a chemical/bacteriological sample submitted to Department? Yes No ☒ If yes, mo/day/yr sample was submitted																																																																																																									
Water Well Disinfected? Yes No ☒																																																																																																									
5 TYPE OF BLANK CASING USED:																																																																																																									
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued Clamped																																																																																																									
2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded																																																																																																									
7 Fiberglass Threaded ☒																																																																																																									
Blank casing diameter . 2 . in. to . 17 . ft., Dia in. to ft., Dia in. to ft.																																																																																																									
Casing height above land surface . 0 . in., weight lbs./ft. Wall thickness or gauge No. Schedule 40																																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																									
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																																																																									
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)																																																																																																									
12 None used (open hole)																																																																																																									
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																									
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																																																									
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																																																									
7 Torch cut 10 Other (specify)																																																																																																									
SCREEN-PERFORATED INTERVALS: From 17 . ft. to 37 . ft., From ft. to ft.																																																																																																									
From ft. to ft., From ft. to ft.																																																																																																									
GRAVEL PACK INTERVALS: From 15 . ft. to 37 . ft., From ft. to ft.																																																																																																									
From ft. to ft., From ft. to ft.																																																																																																									
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																																									
Grout intervals: From 0 . ft. to 12 (cement) ft., From 12 . ft. to 15 (bent) ft., From ft. to ft.																																																																																																									
What is the nearest source of possible contamination:																																																																																																									
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																																																									
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																																																									
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																																																																									
13 Insecticide storage																																																																																																									
Direction from well? Southeast How many feet? 225
