

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																					
County: <u>Saline</u>		SE 1/4 SW 1/4 SE 1/4		15		T 14 S		R 3 <u>E(W)</u>																																																																																					
Distance and direction from nearest town or city street address of well if located within city? <u>671 Westport Blvd., Salina, Ks. 67401 MW 12</u>																																																																																													
2 WATER WELL OWNER: <u>Midway USA Conoco</u>																																																																																													
RR#, St. Address, Box # : <u>671 Westport</u>																																																																																													
City, State, ZIP Code : <u>Salina, Ks. 67401</u>																																																																																													
Board of Agriculture, Division of Water Resources Application Number:																																																																																													
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL <u>40</u> ft. ELEVATION:																																																																																											
		Depth(s) Groundwater Encountered 1. <u>35</u> ft. 2. _____ ft. 3. _____ ft.																																																																																											
		WELL'S STATIC WATER LEVEL <u>22.84</u> ft. below land surface measured on mo/day/yr <u>2-25-92</u>																																																																																											
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																											
		Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																											
		Bore Hole Diameter <u>7 5/8</u> in. to <u>40</u> ft., and _____ in. to _____ ft.																																																																																											
WELL WATER TO BE USED AS:																																																																																													
5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only <u>10</u> Monitoring well																																																																																													
Was a chemical/bacteriological sample submitted to Department? Yes _____ No <u>✓</u> ; If yes, mo/day/yr sample was submitted _____																																																																																													
Water Well Disinfected? Yes _____ No <u>✓</u>																																																																																													
5 TYPE OF BLANK CASING USED:																																																																																													
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued _____ Clamped _____ <u>2</u> PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded _____ 7 Fiberglass Threaded <u>✓</u>																																																																																													
Blank casing diameter <u>2</u> in. to <u>20</u> ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																													
Casing height above land surface <u>0</u> in., weight _____ lbs./ft. Wall thickness or gauge No. <u>Schedule 40</u>																																																																																													
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																													
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) _____ 12 None used (open hole)																																																																																													
SCREEN OR PERFORATION OPENINGS ARE:																																																																																													
1 Continuous slot <u>3</u> Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify) _____																																																																																													
SCREEN-PERFORATED INTERVALS: From <u>20</u> ft. to <u>40</u> ft., From _____ ft. to _____ ft.																																																																																													
GRAVEL PACK INTERVALS: From <u>18</u> ft. to <u>40</u> ft., From _____ ft. to _____ ft.																																																																																													
6 GROUT MATERIAL: <u>1</u> Neat cement 2 Cement grout <u>3</u> Bentonite 4 Other _____																																																																																													
Grout Intervals: From 0 _____ ft. to <u>1</u> (cement) ft., From <u>1</u> ft. to <u>18</u> (bent) ft., From _____ ft. to _____ ft.																																																																																													
What is the nearest source of possible contamination:																																																																																													
1 Septic tank 4 Lateral lines 7 Pit privy <u>10</u> Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon <u>11</u> Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																																																													
Direction from well? <u>west</u> How many feet? <u>200</u>
