

WATER WELL RECORD Form WWC-5 KSA 82a-1212

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																					
County: <u>McPherson</u>		NE 1/4 NE 1/4 SE 1/4		21		T 19 S		R 1 E <u>(W)</u>																																																																																					
Distance and direction from nearest town or city street address of well if located within city?																																																																																													
209 S Main Street, Canton, Ks. MW 11																																																																																													
2 WATER WELL OWNER: The Canton Elevator																																																																																													
RR#, St. Address, Box # : 209 S Main St.						Board of Agriculture, Division of Water Resources																																																																																							
City, State, ZIP Code : Canton, Kks. 67428						Application Number:																																																																																							
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:				4 DEPTH OF COMPLETED WELL 45 ft. ELEVATION:																																																																																									
				Depth(s) Groundwater Encountered 1. 35 ft. 2. ft. 3. ft.																																																																																									
				WELL'S STATIC WATER LEVEL 34.20 ft. below land surface measured on mo/day/yr 2-19-92																																																																																									
				Pump test data: Well water was ft. after hours pumping gpm																																																																																									
				Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																																									
				Bore Hole Diameter 7 5/8 in. to 45 ft., and in. to ft.																																																																																									
WELL WATER TO BE USED AS:																																																																																													
1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																													
Was a chemical/bacteriological sample submitted to Department? Yes.....No.....; If yes, mo/day/yr sample was submitted																																																																																													
Water Well Disinfected? Yes.....No.....																																																																																													
5 TYPE OF BLANK CASING USED:																																																																																													
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued.....Clamped..... 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded..... 7 Fiberglass Threaded.....																																																																																													
Blank casing diameter 2 in. to 25 ft., Dia in. to ft., Dia in. to ft.																																																																																													
Casing height above land surface 0 in., weight lbs./ft. Wall thickness or gauge No. Schedule 40																																																																																													
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																													
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)..... 12 None used (open hole)																																																																																													
SCREEN OR PERFORATION OPENINGS ARE:																																																																																													
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify).....																																																																																													
SCREEN-PERFORATED INTERVALS:																																																																																													
From 25 ft. to 45 ft., From ft. to ft.																																																																																													
From ft. to ft., From ft. to ft.																																																																																													
GRAVEL PACK INTERVALS:																																																																																													
From 23 ft. to 45 ft., From ft. to ft.																																																																																													
From ft. to ft., From ft. to ft.																																																																																													
6 GROUT MATERIAL:																																																																																													
1 Neat cement 2 Cement grout 3 Bentonite 4 Other..... Grout Intervals: From 0 ft. to 19 (cement) ft., From 19 ft. to 23 (bent) ft., From ft. to ft.																																																																																													
What is the nearest source of possible contamination:																																																																																													
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																																																													
Direction from well? Northeast																																																																																													
How many feet? 400
