

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																													
County: BARTON		NE 1/4 NE 1/4 NE 1/4		31		T 19 S		R 13 E/W																																																													
Distance and direction from nearest town or city street address of well if located within city?																																																																					
809 COOLIDGE																																																																					
2 WATER WELL OWNER: C.W. BUTLER																																																																					
RR#, St. Address, Box #: 2420 ROCK BRIDGE RD.																																																																					
City, State, ZIP Code: GREAT BEND, KS. 67530																																																																					
Board of Agriculture, Division of Water Resources Application Number:																																																																					
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:																																																																					
		4 DEPTH OF COMPLETED WELL: 60 ft. ELEVATION:																																																																			
		Depth(s) Groundwater Encountered 1. ft. 2. ft. 3. ft.																																																																			
		WELL'S STATIC WATER LEVEL: 17 ft. below land surface measured on mo/day/yr																																																																			
		Pump test data: Well water was ft. after hours pumping gpm																																																																			
		Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																			
Bore Hole Diameter 9 in. to ft. and in. to ft.																																																																					
WELL WATER TO BE USED AS:																																																																					
5 Public water supply 8 Air conditioning 11 Injection well																																																																					
X1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																					
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																					
Was a chemical/bacteriological sample submitted to Department? Yes No X If yes mo/day/yr sample was submitted																																																																					
Water Well Disinfected? Yes X No																																																																					
5 TYPE OF BLANK CASING USED:																																																																					
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued X Clamped																																																																					
X 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded																																																																					
 7 Fiberglass Threaded																																																																					
Blank casing diameter 5 in. to 50 ft. Dia. in. to ft. Dia. in. to ft.																																																																					
Casing height above land surface 24 in. weight lbs. ft. Wall thickness or gauge No.																																																																					
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																					
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																																					
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)																																																																					
 12 None used (open hole)																																																																					
SCREEN OR PERFORATION OPENINGS ARE:																																																																					
1 Continuous slot X 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																					
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																					
 7 Torch cut 10 Other (specify)																																																																					
SCREEN-PERFORATED INTERVALS: From 50 ft. to 60 ft. From ft. to ft.																																																																					
From ft. to ft. From ft. to ft.																																																																					
GRAVEL PACK INTERVALS: From 23 ft. to 60 ft. From ft. to ft.																																																																					
From ft. to ft. From ft. to ft.																																																																					
6 GROUT MATERIAL:																																																																					
1 Neat cement 2 Cement grout X Bentonite 4 Other																																																																					
Grout Intervals: From 3 ft. to 23 ft. From ft. to ft. From ft. to ft.																																																																					
What is the nearest source of possible contamination:																																																																					
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																					
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																					
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																																					
 13 Insecticide storage NONE																																																																					
Direction from well? How many feet?
