\*Where the owner of a water well is not the landowner, KDHE regulations in Article 30 [K.A.R. 28-30-7(e)] allow responsibility for the well to be conveyed to the landowner in lieu of abandoning and plugging the well, but the well must conform to the requirements for active or inactive status. The transfer must be made through a legal document, approved by KDHE, advising the landowner of their responsibilities and obligations to properly maintain the well, including the proper plugging of the well when it is abandoned.

Landowners may obtain KDHE's written approval to maintain the well in an inactive status, in accordance with K.A.R. 28-30-7(f), rather than plugging it if the landowner can present evidence as to the well's condition and the landowner's intentions to use the well in the future.

A request for inactive water well status must be submitted to KDHE by completing Form WWC-6 in accordance with Procedure WWP-4. KDHE Water Well Program statutes, regulations, forms, and procedures are available at:
