

1 LOCATION OF WATER WELL: County: Stafford		Fraction SE ¼ NW ¼ NW ¼	Section Number 16	Township Number T 22 S	Range Number R 11W E/W																																																																														
Distance and direction from nearest town or city street address of well if located within city? 6E, 2N of Hudson, KS			Global Positioning Systems (decimal degrees, min. of 4 digits) Latitude: _____ Longitude: _____ Elevation: _____ Datum: _____ Data Collection Method: _____																																																																																
2 WATER WELL OWNER: L. D. Davis RR#, St. Address, Box # : 7 SW 26th Ave. City, State, ZIP Code : Great Bend, KS 67530																																																																																			
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 56 ft.																																																																																	
		Depth(s) Groundwater Encountered (1).....15..... ft. (2)..... ft. (3)..... ft. WELL'S STATIC WATER LEVEL.....15..... ft. below land surface measured on mo/day/yr. 08/28/08.. Pump test data: Well water was.....ft. after..... hours pumping..... gpm Est. Yield....30...gpm: Well water was.....ft. after..... hours pumping..... gpm WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																																	
		Was a chemical/bacteriological sample submitted to Department? Yes No; If yes, mo/day/yrs Sample was submitted..... Water well disinfected? Yes No																																																																																	
5 TYPE OF CASING USED:																																																																																			
1 Steel 3 RMP (SR)		5 Wrought Iron 8 Concrete tile		CASING JOINTS: Glued..... Clamped.....																																																																															
2 PVC 4 ABS		6 Asbestos-Cement 9 Other (specify below)		Welded.....																																																																															
Blank casing diameter5..... in. to36..... ft., Diameter. in. to ft., Diameter in. toft.		Threaded.....																																																																																	
Casing height above land surface.....12..... in., Weight2.8.....lbs./ft.		Wall thickness or guage No. Sch. 40.....																																																																																	
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																			
1 Steel 3 Stainless Steel 5 Fiberglass 7 PVC 9 ABS 11 Other (Specify)																																																																																			
2 Brass 4 Galvanized Steel 6 Concrete tile 8 RM (SR) 10 Asbestos-Cement 12 None used (open hole)																																																																																			
SCREEN OR PERFORATION OPENINGS ARE:																																																																																			
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 7 Torch cut 9 Drilled holes 11 None (open hole)																																																																																			
2 Louvered shutter 4 Key punched 6 Wire wrapped 8 Saw cut 10 Other (specify)																																																																																			
SCREEN-PERFORATED INTERVALS: From.....36..... ft. to56..... ft., From ft. to ft.																																																																																			
From..... ft. to ft., From ft. to ft.																																																																																			
GRAVEL PACK INTERVALS: From.....20..... ft. to56..... ft., From ft. to ft.																																																																																			
From..... ft. to ft., From ft. to ft.																																																																																			
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																			
Grout Intervals: From0..... ft. to20..... ft., From ft. to ft., From ft. toft.																																																																																			
What is the nearest source of possible contamination:																																																																																			
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 13 Insecticide storage 16 Other (specify																																																																																			
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 14 Abandoned water well below)																																																																																			
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 15 Oil well/gas well none..in.pasture																																																																																			
Direction from well?		How many feet?
