

<b>1 LOCATION OF WATER WELL:</b>		Fraction	Section Number	Township Number	Range Number																																																																																				
County: <b>Harvey</b>		NW ¼ SW ¼ SW ¼	<b>34</b>	T 23 S	R 3 E/W																																																																																				
Distance and direction from nearest town or city street address of well if located within city? ~1/2 mi N of SW 36th & S Prairie Lake Rd, Burrton																																																																																									
<b>2 WATER WELL OWNER:</b> Rose Rock Midstream, L.P.																																																																																									
RR#, St. Address, Box # : 3030 NW Expressway, Ste 1100			Board of Agriculture, Division of Water Resources																																																																																						
City, State, ZIP Code : Oklahoma City, OK 73112			Application Number:																																																																																						
<b>3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:</b>		<b>4 DEPTH OF COMPLETED WELL . . . . . 25 . . . . ft. ELEVATION:</b>																																																																																							
		Depth(s) Groundwater Encountered 1. . . . . ft. 2. . . . . ft. 3. . . . . ft.																																																																																							
		WELL'S STATIC WATER LEVEL . . . . . ft. below land surface measured on mo/day/yr . . . . .																																																																																							
		Pump test data: Well water was . . . . NA . . . ft. after . . . . hours pumping . . . . gpm																																																																																							
		Est. Yield . . NA . . gpm: Well water was . . . . ft. after . . . . hours pumping . . . . gpm																																																																																							
		Bore Hole Diameter . . . . 8 . . . in. to . . . . 25 . . . ft., and . . . . in. to . . . . ft.																																																																																							
		WELL WATER TO BE USED AS: 5 Public water supply    8 Air conditioning    11 Injection well 1 Domestic    3 Feedlot    6 Oil field water supply    9 Dewatering    12 Other (Specify below) 2 Irrigation    4 Industrial    7 Lawn and garden only <b>10 Monitoring well</b>																																																																																							
		Was a chemical/bacteriological sample submitted to Department? Yes.....No✓ ; If yes, mo/day/yr sample was submitted																																																																																							
		Water Well Disinfected? Yes                  No ✓																																																																																							
<b>5 TYPE OF BLANK CASING USED:</b>																																																																																									
1 Steel		3 RMP (SR)	6 Asbestos-Cement	9 Other (specify below)	CASING JOINTS: Glued . . . . Clamped . . . .																																																																																				
<b>2 PVC</b>		4 ABS	7 Fiberglass		Welded . . . .																																																																																				
					Threaded. ✓																																																																																				
Blank casing diameter . . . . 2 . . . in. to . . . . 10 . . . ft, Dia . . . . in. to . . . . ft, Dia . . . . in. to . . . . ft.																																																																																									
Casing height above land surface . . . . 30 . . . in., weight . . . . lbs./ft. Wall thickness or gauge No. . . . Sch. 40 . . .																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL																																																																																									
1 Steel		3 Stainless steel	5 Fiberglass	<b>7 PVC</b>	10 Asbestos-cement																																																																																				
2 Brass		4 Galvanized steel	6 Concrete tile	8 RMP (SR)	11 Other (specify) . . . . .																																																																																				
				9 ABS	12 None used (open hole)																																																																																				
SCREEN OR PERFORATION OPENINGS ARE:																																																																																									
1 Continuous slot		<b>3 Mill slot</b>	5 Gauzed wrapped	8 Saw cut	11 None (open hole)																																																																																				
2 Louvered shutter		4 Key punched	6 Wire wrapped	9 Drilled holes																																																																																					
			7 Torch cut	10 Other (specify) . . . . .																																																																																					
SCREEN-PERFORATED INTERVALS: From . . . . 10 . . . ft. to . . . . 25 . . . ft, From . . . . ft. to . . . . ft																																																																																									
From . . . . ft. to . . . . ft, From . . . . ft. to . . . . ft																																																																																									
GRAVEL PACK INTERVALS: From . . . . 8 . . . ft. to . . . . 25 . . . ft, From . . . . ft. to . . . . ft																																																																																									
From . . . . ft. to . . . . ft, From . . . . ft. to . . . . ft																																																																																									
<b>6 GROUT MATERIAL:</b> 1 Neat cement    2 Cement grout <b>3 Bentonite</b> <b>4 Other Concrete</b>																																																																																									
Grout Intervals: From . . . . 0 . . . ft. to . . . . 2.5 . . . ft, From . . . . 2.5 . . . ft. to . . . . 8 . . . ft, From . . . . ft. to . . . . ft																																																																																									
What is the nearest source of possible contamination:																																																																																									
1 Septic tank		4 Lateral lines	7 Pit privy	10 Livestock pens	14 Abandoned water well																																																																																				
2 Sewer lines		5 Cess pool	8 Sewage lagoon	11 Fuel storage	15 Oil well/Gas well																																																																																				
3 Watertight sewer lines		6 Seepage pit	9 Feedyard	12 Fertilizer storage	16 Other (specify below)																																																																																				
				13 Insecticide storage																																																																																					
Direction from well?				How many feet?
