WELL'S STATIC WATER LEVEL 17 ft. below land surface measured on mo/day/yr 12-14-88																																																											
Pump test data: Well water was 26 ft. after 1 hours pumping 15 gpm																																																											
Est. Yield 25 gpm: Well water was ft. after hours pumping gpm																																																											
Bore Hole Diameter 12 in. to 58 ft., and in. to ft.																																																											
WELL WATER TO BE USED AS:																																																											
① Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																											
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Observation well																																																											
Was a chemical/bacteriological sample submitted to Department? Yes.....No X; If yes, mo/day/yr sample was submitted																																																											
Water Well Disinfected? Yes X No																																																											
5 TYPE OF BLANK CASING USED:																																																											
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued X Clamped																																																											
② PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded																																																											
Blank casing diameter 6 in. to 38 ft., Dia in. to ft., Dia in. to ft.																																																											
Casing height above land surface 12 in., weight lbs./ft. Wall thickness or gauge No. 250																																																											
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																											
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																											
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)																																																											
SCREEN OR PERFORATION OPENINGS ARE:																																																											
1 Continuous slot ③ Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																											
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																											
SCREEN-PERFORATED INTERVALS: From 38 ft. to 58 ft., From ft. to ft.																																																											
GRAVEL PACK INTERVALS: From 23 ft. to 58 ft., From ft. to ft.																																																											
From ft. to ft., From ft. to ft.																																																											
6 GROUT MATERIAL: ① Neat cement 2 Cement grout 3 Bentonite 4 Other																																																											
Grout Intervals: From 3 ft. to 23 ft., From ft. to ft., From ft. to ft.																																																											
What is the nearest source of possible contamination:																																																											
① Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																											
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																											
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																											
13 Insecticide storage
