

1) LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																				
County: Reno	SW ¼ SW ¼ SE ¼	29	T 23 S	R 6 E/W																																																																																					
Distance and direction from nearest town or city street address of well if located within city? W of Mohawk Rd., N of SW Blanchard			Lat. 38.01401 Long. -98.00443																																																																																						
2) WATER WELL OWNER: Enterprise Products Operating LLC RR#, St. Address, Box # : 2610 S. Mohawk Road City, State, ZIP Code : Hutchinson, KS 67501 Board of Agriculture, Division of Water Resources Application Number:																																																																																									
3) LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4) DEPTH OF COMPLETED WELL 206 ft ELEVATION:																																																																																							
1 Mile scale bar.		Depth(s) Groundwater Encountered 1. ft 2. ft 3. ft																																																																																							
		WELL'S STATIC WATER LEVEL . . . 40.98 . . . ft below land surface measured on mo/day/yr . . . 2/23/2011																																																																																							
		Pump test data: Well water was . . . NA . . . ft after . . . hours pumping . . . gpm																																																																																							
		Est. Yield . . NA . . gpm: Well water was . . . ft after . . . hours pumping . . . gpm																																																																																							
		Bore Hole Diameter . . . 6 . . in. to . . . 207 . . . ft, and . . . in. to . . . ft																																																																																							
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																							
		Was a chemical/bacteriological sample submitted to Department? Yes.....No✓ ; If yes, mo/day/yr sample was submitted Water Well Disinfected? Yes No ✓																																																																																							
5) TYPE OF BLANK CASING USED:																																																																																									
1 Steel 3 RMP (SR)		5 Wrought iron 8 Concrete tile		CASING JOINTS: Glued Clamped																																																																																					
2 PVC 4 ABS		6 Asbestos-Cement 9 Other (specify below)		Welded																																																																																					
		7 Fiberglass		Threaded. ✓																																																																																					
Blank casing diameter 2 . . . in. to . . . 171 . . . ft, Dia . . . in. to . . . ft, Dia . . . in. to . . . ft																																																																																									
Casing height above land surface 30 . . . in., weight . . . lbs./ft. Wall thickness or gauge No. . . . Sch. 40																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL																																																																																									
1 Steel 3 Stainless steel 5 Fiberglass		7 PVC 10 Asbestos-cement																																																																																							
2 Brass 4 Galvanized steel 6 Concrete tile		8 RMP (SR) 11 Other (specify)																																																																																							
		9 ABS 12 None used (open hole)																																																																																							
SCREEN OR PERFORATION OPENINGS ARE:																																																																																									
1 Continuous slot 3 Mill slot		5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																																							
2 Louvered shutter 4 Key punched		6 Wire wrapped 9 Drilled holes																																																																																							
		7 Torch cut 10 Other (specify)																																																																																							
SCREEN-PERFORATED INTERVALS: From . . . 171 . . . ft to . . . 206 . . . ft, From . . . ft to . . . ft																																																																																									
From . . . ft to . . . ft, From . . . ft to . . . ft																																																																																									
GRAVEL PACK INTERVALS: From . . . 165 . . . ft to . . . 207 . . . ft, From . . . ft to . . . ft																																																																																									
From . . . ft to . . . ft, From . . . ft to . . . ft																																																																																									
6) GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																									
Grout Intervals: From . . . 2 . . . ft to . . . 22 . . . ft, From . . . 22 . . . ft to . . . 158 . . . ft, From . . . 158 . . . ft to . . . 165 . . . ft																																																																																									
What is the nearest source of possible contamination:																																																																																									
1 Septic tank 4 Lateral lines 7 Pit privy		10 Livestock pens 14 Abandoned water well																																																																																							
2 Sewer lines 5 Cess pool 8 Sewage lagoon		11 Fuel storage 15 Oil well/Gas well																																																																																							
3 Watertight sewer lines 6 Seepage pit 9 Feedyard		12 Fertilizer storage 16 Other (specify below)																																																																																							
Direction from well?		How many feet?
