

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																											
County: <u>Harvey</u>		NW 1/4 NW 1/4 SW 1/4		32		T 24 S		R 2 E W																																																																																											
Distance and direction from nearest town or city street address of well if located within city? <u>Approximately 8 miles west and 1/2 mile north of Sedgwick</u>																																																																																																			
2 WATER WELL OWNER: <u>City of Wichita</u> RR#, St. Address, Box # : <u>455 N. Main</u> City, State, ZIP Code : <u>Wichita, KS 67202</u> Board of Agriculture, Division of Water Resources Application Number:																																																																																																			
3 LOCATE WELL'S LOCATION WITH		4 DEPTH OF COMPLETED WELL <u>200</u> ft. ELEVATION: <u>unknown</u>																																																																																																	
AN "X" IN SECTION BOX: N  S E W		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																																																	
		WELL'S STATIC WATER LEVEL <u>not checked</u> ft. below land surface measured on <u>mo/day/yr</u>																																																																																																	
		Pump test data: Well water was <u>not checked</u> ft. after _____ hours pumping _____ gpm																																																																																																	
		Est. Yield <u>unknown</u> gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																																	
		Bore Hole Diameter <u>6</u> in. to <u>229</u> ft., and _____ in. to _____ ft.																																																																																																	
WELL WATER TO BE USED AS: 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (specify below) 2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well Index Well																																																																																																			
Was a chemical/bacteriological sample submitted to Department? Yes _____ No ☒ If yes, mo/day/yr sample was submitted _____ Water Well Disinfected? Yes _____ No ☒																																																																																																			
5 TYPE OF BLANK CASING USED:																																																																																																			
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued ☒ Clamped																																																																																																			
2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded _____																																																																																																			
Blank casing diameter <u>2</u> in. to <u>188</u> ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																																			
Casing height above land surface <u>24</u> in., weight <u>.96</u> lbs./ft. Wall thickness or gauge No <u>.218</u>																																																																																																			
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																			
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																																																																			
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) _____																																																																																																			
12 None used (open hole)																																																																																																			
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																			
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																																																																			
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																																																																			
10 Other (specify) _____ ft.																																																																																																			
SCREEN-PERFORATED INTERVALS: From <u>188</u> ft. to <u>198</u> ft., From _____ ft. to _____ ft.																																																																																																			
GRAVEL PACK INTERVALS: From <u>157</u> ft. to <u>229</u> ft., From _____ ft. to _____ ft.																																																																																																			
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other _____																																																																																																			
Grout Intervals: From <u>0</u> ft. to <u>157</u> ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																			
What is the nearest source of possible contamination:																																																																																																			
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																																																																			
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																																																																			
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) _____																																																																																																			
None known																																																																																																			
Direction from well? _____ How many feet? _____
