

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																											
County: Harvey		NE 1/4 SE 1/4 SE 1/4		21		T 24 S		R 3 E W																																																																																											
Distance and direction from nearest town or city street address of well if located within city? Approximately 1 mile east and 5 3/4 miles south of Burrton																																																																																																			
2 WATER WELL OWNER: City of Wichita RR#, St. Address, Box # : 455 N. Main City, State, ZIP Code : Wichita, KS 67202 Board of Agriculture, Division of Water Resources Application Number:																																																																																																			
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 87 ft. ELEVATION: unknown																																																																																																	
N ↑ 1 Mile ↓ S X W ← → E		Depth(s) Groundwater Encountered 1 ft. 2 ft. 3 ft.																																																																																																	
		WELL'S STATIC WATER LEVEL not checked ft. below land surface measured on mo/day/yr																																																																																																	
		Pump test data: Well water was not checked ft. after hours pumping gpm																																																																																																	
		Est. Yield unknown gpm: Well water was ft. after hours pumping gpm																																																																																																	
		Bore Hole Diameter 6 in. to 120 ft., and in. to ft.																																																																																																	
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (specify below) 2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well Index Well																																																																																																	
		Was a chemical/bacteriological sample submitted to Department? Yes No ☒ If yes, mo/day/yr sample was submitted Water Well Disinfected? Yes No ☒																																																																																																	
5 TYPE OF BLANK CASING USED:																																																																																																			
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued ☒ Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded																																																																																																			
Blank casing diameter 2 in. to 65 ft., Dia in. to ft., Dia in. to ft. Casing height above land surface 24 in., weight .96 lbs./ft. Wall thickness or gauge No .218																																																																																																			
TYPE OF SCREEN OR PERFORATION MATERIAL: 7 PVC 10 Asbestos-cement 1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 11 Other (specify) 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 12 None used (open hole)																																																																																																			
SCREEN OR PERFORATION OPENINGS ARE: 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 1 Continuous slot 3 Mill slot 6 Wire wrapped 9 Drilled holes 2 Louvered shutter 4 Key punched 7 Torch cut 10 Other (specify) ft.																																																																																																			
SCREEN-PERFORATED INTERVALS: From 65 ft. to 85 ft., From ft. to ft. From ft. to ft., From ft. to ft. GRAVEL PACK INTERVALS: From 55 ft. to 88 ft., From ft. to ft. From ft. to ft., From ft. to ft.																																																																																																			
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite Sand 4 Other Bentonite Holeplug																																																																																																			
Grout Intervals: From 0 ft. to 49 ft., From 88 ft. to 120 ft., From 49 ft. to 55 ft.																																																																																																			
What is the nearest source of possible contamination: 1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage None known																																																																																																			
Direction from well? How many feet?
