

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																							
County: Stafford		NE 1/4 NE 1/4 SE 1/4		31		T 25 S		R 13 EW																																																							
Distance and direction from nearest town or city street address of well if located within city? 2N 1 1/2W 3/8N OF BYERS, KS																																																															
2 WATER WELL OWNER: Richard Waters																																																															
RR#, St. Address, Box #: RFD 1						Board of Agriculture, Division of Water Resources																																																									
City, State, ZIP Code: St. John, Kansas						Application Number:																																																									
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 100 ft. ELEVATION:																																																													
		Depth(s) Groundwater Encountered 1. 23 ft. 2. ft. 3. ft.																																																													
		WELL'S STATIC WATER LEVEL: 23 ft. below land surface measured on mo/day/yr 8 March 83																																																													
		Pump test data: Well water was ft. after hours pumping gpm																																																													
		Est. Yield 80 gpm; Well water was ft. after hours pumping gpm																																																													
		Bore Hole Diameter: 10 in. to 100 ft., and in. to ft.																																																													
WELL WATER TO BE USED AS:																																																															
☒ Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) ☐ Irrigation 4 Industrial 7 Lawn and garden only 10 Observation well																																																															
Was a chemical/bacteriological sample submitted to Department? Yes No ☒ If yes, mo/day/yr sample was submitted																																																															
Water Well Disinfected? Yes ☒ No																																																															
5 TYPE OF BLANK CASING USED:																																																															
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued ☒ Clamped ☒ PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded																																																															
Blank casing diameter 5 in. to 80 ft., Dia. in. to ft., Dia. in. to ft.																																																															
Casing height above land surface 12 in., weight lbs./ft. Wall thickness or gauge No. 214																																																															
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																															
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) 12 None used (open hole)																																																															
SCREEN OR PERFORATION OPENINGS ARE:																																																															
1 Continuous slot 3 Mill slot 5 Gauzed wrapped ☒ Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																															
SCREEN-PERFORATED INTERVALS: From 80 ft. to 100 ft., From ft. to ft.																																																															
From ft. to ft., From ft. to ft.																																																															
GRAVEL PACK INTERVALS: From 14 ft. to 100 ft., From ft. to ft.																																																															
From ft. to ft., From ft. to ft.																																																															
6 GROUT MATERIAL:																																																															
1 Neat cement ☒ Cement grout 3 Bentonite 4 Other Grout Intervals: From 4 ft. to 14 ft., From ft. to ft., From ft. to ft.																																																															
What is the nearest source of possible contamination:																																																															
☒ Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																															
Direction from well? WEST How many feet? 100'
