

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																			
County: Sedgwick		SE 1/4 SE 1/4 SE 1/4		12		T 25-S		R 2 EW																																																																			
Distance and direction from nearest town or city street address of well if located within city?																																																																											
From Bentley go 2 miles East, North side of road.																																																																											
2 WATER WELL OWNER: Pleasant Valley Church																																																																											
RR#, St. Address, Box # : P.O. Box 5					Board of Agriculture, Division of Water Resources																																																																						
City, State, ZIP Code : Bentley, Ks 67016					Application Number:																																																																						
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:			4 DEPTH OF COMPLETED WELL: 120 ft. ELEVATION:																																																																								
			Depth(s) Groundwater Encountered 1. ft. 2. ft. 3. ft.																																																																								
			WELL'S STATIC WATER LEVEL 42 ft. below land surface measured on mo/day/yr August 4, 1989																																																																								
			Pump test data: Well water was ft. after hours pumping gpm																																																																								
			Est. Yield ... N/A gpm: Well water was ft. after hours pumping gpm																																																																								
			Bore Hole Diameter ... 9 3/4 in. to 120 ft. and in. to ft.																																																																								
			WELL WATER TO BE USED AS:																																																																								
			☒ Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																								
			Was a chemical/bacteriological sample submitted to Department? Yes.....No ☒; If yes, mo/day/yr sample was submitted																																																																								
			Water Well Disinfected? Yes ☒ No																																																																								
5 TYPE OF BLANK CASING USED:																																																																											
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued ☒ Clamped ☒ PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded																																																																											
Blank casing diameter 5 in. to 0 - 100 Dia in. to ft. Dia in. to ft.																																																																											
Casing height above land surface 18 in., weight 160 lbs./ft. Wall thickness or gauge No.																																																																											
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																											
☒ PVC 10 Asbestos-cement 1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 11 Other (specify) 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 12 None used (open hole)																																																																											
SCREEN OR PERFORATION OPENINGS ARE:																																																																											
5 Gauzed wrapped ☒ Saw cut 11 None (open hole) 1 Continuous slot 3 Mill slot 6 Wire wrapped 9 Drilled holes 2 Louvered shutter 4 Key punched 7 Torch cut 10 Other (specify)																																																																											
SCREEN-PERFORATED INTERVALS: From 100 ft. to 120 ft. From ft. to ft.																																																																											
GRAVEL PACK INTERVALS: From 20 ft. to 120 ft. From ft. to ft.																																																																											
6 GROUT MATERIAL: 1 Neat cement ☒ Cement grout 3 Bentonite 4 Other																																																																											
Grout Intervals: From 5 ft. to 120 ft. From ft. to ft. From ft. to ft.																																																																											
What is the nearest source of possible contamination:																																																																											
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage None																																																																											
Direction from well? How many feet?
