

1 LOCATION OF WATER WELL:		FRACTION	SECTION NUMBER	TOWNSHIP NUMBER	RANGE NUMBER																																																																																																																																				
Sedgwick		NE 1/4 NW 1/4 SE 1/4	32	T 26 S	R 1W E/W																																																																																																																																				
Distance and direction from nearest town or city street address of well if located within city?																																																																																																																																									
3389 N. Wild Thicket Wichita, Kansas																																																																																																																																									
2 WATER WELL OWNER:		KELLER, Kevin																																																																																																																																							
RR#,ST. ADDRESS,BOX #:		3389 N. Wild Thicket																																																																																																																																							
CITY, STATE:		ZIP CODE:		Application Number:																																																																																																																																					
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 65 ft. ELEVATION:																																																																																																																																							
		Depth of groundwater Encountered: _____ ft. WELL'S STATIC WATER LEVEL 25 FT. BELOW LAND SURFACE MEASURED ON mo/day/yr: 3/29/06 Pump test data: Well water was _____ ft. after _____ hours of pumping @ _____ gpm Est. Yield: _____ gpm Well water was _____ ft. after _____ hours of pumping @ _____ gpm Bore Hole Diameter 12 in. to 65 ft. and _____ in. to _____ ft. WELL WATER TO BE USED AS: 1. Domestic 3. Feedlot 5. Public water supply 7. Lawn and garden only 9. Dewatering 11. Injection well 2. Irrigation 4. Industrial 6. Oil field water supply 8. Air conditioning 10. Monitoring well 12. Other (Specify below) _____ Was a chemical/bacteriological sample submitted to Department? YES <u>NO</u> ; If yes, what mo/day/yr was sample submitted _____ Was Water Well Disinfected? <u>YES</u> NO																																																																																																																																							
5 TYPE OF CASING USED:																																																																																																																																									
1. Steel 3. RPM (SR) 5. Wrought Iron 7. Fiberglass 9. Other (Specify below) CASING JOINTS: <u>Glued</u> Threaded <u>2. PVC</u> 4. ABS 6. Asbestos-Cement 8. Concrete tile SDR-26 Welded Clamped																																																																																																																																									
Blank casing diameter 5 in. to 45 ft., Dia. _____ in. to _____ ft., Dia. _____ in. to _____ ft.																																																																																																																																									
Casing height above land surface: 12 in., Weight: 2.35 lbs. / ft. Wall thickness or gauge No. .214																																																																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																																																									
1. Steel 3. Stainless Steel 5. Fiberglass <u>7. PVC</u> 9. ABS 11. Other (specify) 2. Brass 4. Galvanized 6. Concrete Tile 8. RMP (SR) 10. Asbestos-Cement 12. None used (open hole)																																																																																																																																									
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																																																									
1. Continuous slot 3. Mill slot 5. Gauzed wrapped 7. Torch cut 9. Drilled holes 11. None (open hole) 2. Louvered shutter 4. Key punched 6. Wire wrapped <u>8. Saw cut</u> 10. Other (specify)																																																																																																																																									
SCREEN - PERFORATION INTERVAL From 45 ft. to 65 ft., From _____ ft. to _____ ft.																																																																																																																																									
GRAVEL PACK INTERVALS: From 24 ft. to 65 ft., From _____ ft. to _____ ft.																																																																																																																																									
6 GROUT MATERIALS: 1. Neat cement 2. Cement Grout 3. Bentonite Other bentonite hole plug																																																																																																																																									
Grout Intervals: From 4 ft. to 24 ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft.																																																																																																																																									
What is the nearest source of possible contamination:																																																																																																																																									
1. Septic tank 4. Lateral lines 7. Pit privy 10. Livestock pens 13. Insecticide storage 15. Oil well/Gas well 2. Sewer lines 5. Cess Pool 8. Sewage lagoon 11. Fuel storage 14. Abandon water well 16. Other (specify below) _____ <u>3. Watertight sewer line</u> 6. Seepage pit 9. Feed yard 12. Fertilizer storage																																																																																																																																									
Direction from well? East How many feet? 12
