

WATER WELL RECORD

Form WWC-5

Division of Water Resources, App. No.

1 LOCATION OF WATER WELL:		Fraction		Section Number	Township Number	Range Number																																																																																				
County: Sedgwick		NE ne ¼ SW ¼ SW ¼		28	T 26s S	R 1w E/W																																																																																				
Distance and direction from nearest town or city street address of well if located within city? 8406 Palmetto Circle				Global Positioning System (decimal degrees, min. of 4 digits) Latitude: _____ Longitude: _____ Elevation: _____ Datum: _____ Data Collection Method: _____																																																																																						
2 WATER WELL OWNER: Scott Machnich RR#, St. Address, Box # : 8406 Palmetto Circle City, State, ZIP Code : Wichita KS 67235																																																																																										
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 58 ft.																																																																																								
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft. WELL'S STATIC WATER LEVEL 20 ft. below land surface measured on mo/day/yr Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm Est. Yield 20 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																																								
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No X ; If yes, mo/day/yr _____																																																																																								
		Sample was submitted _____ Water Well Disinfected? Yes X No _____																																																																																								
5 TYPE OF CASING USED:																																																																																										
1 Steel		3 RMP (SR)		6 Asbestos-Cement		9 Other (specify below)																																																																																				
2 PVC		4 ABS		7 Fiberglass																																																																																						
Blank casing diameter 5 in. to 58 ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																										
Casing height above land surface 12 in., Weight 2.40 lbs./ft. Wall thickness or gauge No. 160 psi																																																																																										
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																										
1 Steel		3 Stainless steel		5 Fiberglass		7 PVC																																																																																				
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																																				
						9 ABS																																																																																				
						10 Asbestos-Cement																																																																																				
						11 Other (specify)																																																																																				
						12 None used (open hole)																																																																																				
SCREEN OR PERFORATION OPENINGS ARE:																																																																																										
1 Continuous slot		3 Mill slot		5 Gauge wrapped		7 Torch cut																																																																																				
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																																				
						9 Drilled holes																																																																																				
						10 Other (specify)																																																																																				
						11 None (open hole)																																																																																				
SCREEN-PERFORATED INTERVALS:																																																																																										
From 48 ft. to 58 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
GRAVEL PACK INTERVALS:																																																																																										
From 20 ft. to 58 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
6 GROUT MATERIAL:																																																																																										
1 Neat cement		2 Cement grout		3 Bentonite		4 Other																																																																																				
Grout Intervals From 3 ft. to 20 ft. From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																										
What is the nearest source of possible contamination:																																																																																										
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																																				
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																																				
3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																																				
						13 Insecticide Storage																																																																																				
						14 Abandoned water well																																																																																				
						15 Oil well/ gas well																																																																																				
						16 Other (specify below)																																																																																				
Direction from well? West How many feet? 50																																																																																										
<table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th>FROM</th> <th>TO</th> <th>LITHOLOGIC LOG</th> <th>FROM</th> <th>TO</th> <th>PLUGGING INTERVALS</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>1</td> <td>Top soil</td> <td></td> <td></td> <td></td> </tr> <tr> <td>1</td> <td>10</td> <td>Clay</td> <td></td> <td></td> <td></td> </tr> <tr> <td>10</td> <td>35</td> <td>Med sand</td> <td></td> <td></td> <td></td> </tr> <tr> <td>35</td> <td>41</td> <td>Clay</td> <td></td> <td></td> <td></td> </tr> <tr> <td>41</td> <td>58</td> <td>Med sand</td> <td></td> <td></td> <td></td> </tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>							FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS	0	1	Top soil				1	10	Clay				10	35	Med sand				35	41	Clay				41	58	Med sand
