Was a chemical/bacteriological sample submitted to Department? Yes _____ No X ; If yes, mo/day/yr _____																																																																																										
Sample was submitted _____ Water Well Disinfected? Yes X No _____																																																																																										
5 TYPE OF CASING USED:																																																																																										
1 Steel		3 RMP (SR)		5 Wrought Iron		8 Concrete tile																																																																																				
X 2 PVC		4 ABS		6 Asbestos-Cement		9 Other (specify below)																																																																																				
				7 Fiberglass		CASING JOINTS: Glued X Clamped _____																																																																																				
						Welded _____																																																																																				
						Threaded _____																																																																																				
Blank casing diameter 5 in. to 50 ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																										
Casing height above land surface 12 in., Weight 2.4 lbs./ft. Wall thickness or gauge No. 160 psi																																																																																										
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																										
1 Steel		3 Stainless steel		5 Fiberglass		X PVC																																																																																				
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																																				
						9 ABS																																																																																				
						11 Other (specify) _____																																																																																				
						10 Asbestos-Cement																																																																																				
						12 None used (open hole)																																																																																				
SCREEN OR PERFORATION OPENINGS ARE:																																																																																										
1 Continuous slot		X Mill slot		5 Guaze wrapped		7 Torch cut																																																																																				
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																																				
						9 Drilled holes																																																																																				
						11 None (open hole)																																																																																				
SCREEN-PERFORATED INTERVALS:																																																																																										
From 50 ft. to 60 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
GRAVEL PACK INTERVALS:																																																																																										
From 20 ft. to 60 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
6 GROUT MATERIAL:																																																																																										
1 Neat cement		2 Cement grout		X Bentonite		4 Other _____																																																																																				
Grout Intervals From 2 ft. to 20 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
What is the nearest source of possible contamination:																																																																																										
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																																				
2 Sewer lines		5 Cess pool		8 Sewage lagoon		13 Insecticide Storage																																																																																				
X 3 Watertight sewer lines		6 Seepage pit		9 Feedyard		16 Other (specify below)																																																																																				
						11 Fuel storage																																																																																				
						14 Abandoned water well																																																																																				
						12 Fertilizer storage																																																																																				
						15 Oil well/ gas well																																																																																				
Direction from well? East				How many feet? 30
