

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																																													
County: Edwards		SW 1/4 SW 1/4 SW 1/4		19		T 26 S		R 16 E (W)																																																																																																													
Distance and direction from nearest town or city street address of well if located within city? Approximately 3 1/2 miles south and 2 miles west of Trousdale																																																																																																																					
2 WATER WELL OWNER: Dean Welsch																																																																																																																					
RR#, St. Address, Box # : Route 1 - Box 35					Board of Agriculture, Division of Water Resources																																																																																																																
City, State, ZIP Code : Haviland, KS 67059					Application Number:																																																																																																																
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 67 ft. ELEVATION: unknown																																																																																																																			
		Depth(s) Groundwater Encountered 1 ft. 2 ft. 3 ft.																																																																																																																			
		WELL'S STATIC WATER LEVEL 23.30 ft. below land surface measured on mo/day/yr 6-14-05																																																																																																																			
		Pump test data: Well water was not checked ft. after hours pumping gpm																																																																																																																			
		Est. Yield unknown gpm: Well water was ft. after hours pumping gpm																																																																																																																			
		Bore Hole Diameter 8 in. to 67 ft., and in. to ft.																																																																																																																			
WELL WATER TO BE USED AS:																																																																																																																					
1 Domestic    3 Feedlot    6 Oil field water supply    9 Dewatering    12 Other (specify below) 2 Irrigation    4 Industrial    7 Domestic (lawn & garden)    10 Monitoring well    Stock Well																																																																																																																					
Was a chemical/bacteriological sample submitted to Department? Yes No <input checked="" type="checkbox"/> If yes, mo/day/yr sample was submitted																																																																																																																					
Water Well Disinfected? Yes <input checked="" type="checkbox"/> No																																																																																																																					
5 TYPE OF BLANK CASING USED:																																																																																																																					
1 Steel    3 RMP (SR)    5 Wrought iron    8 Concrete tile    CASING JOINTS: Glued <input checked="" type="checkbox"/> Clamped 2 PVC    4 ABS    6 Asbestos-Cement    9 Other (specify below)    Welded 7 Fiberglass    Threaded																																																																																																																					
Blank casing diameter 5 in. to 55 ft., Dia in. to ft., Dia in. to ft.																																																																																																																					
Casing height above land surface 24 in., weight 2.36 lbs./ft. Wall thickness or gauge No .214																																																																																																																					
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																																																					
1 Steel    3 Stainless steel    5 Fiberglass    7 PVC    10 Asbestos-cement 2 Brass    4 Galvanized steel    6 Concrete tile    8 RMP (SR)    11 Other (specify) 12 None used (open hole)																																																																																																																					
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																																					
1 Continuous slot    3 Mill slot    5 Gauzed wrapped    8 Saw cut    11 None (open hole) 2 Louvered shutter    4 Key punched    6 Wire wrapped    9 Drilled holes 7 Torch cut    10 Other (specify) ft.																																																																																																																					
SCREEN-PERFORATED INTERVALS: From 55 ft. to 65 ft., From ft. to ft.																																																																																																																					
GRAVEL PACK INTERVALS: From 20 ft. to 23 ft., From ft. to ft.																																																																																																																					
From 27 ft. to 65 ft., From ft. to ft.																																																																																																																					
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other Bentonite Holeplug																																																																																																																					
Grout Intervals: From ft. to ft., From 0 ft. to 20 ft., From 23 ft. to 27 ft.																																																																																																																					
What is the nearest source of possible contamination:																																																																																																																					
1 Septic tank    4 Lateral lines    7 Pit privy    10 Livestock pens    14 Abandoned water well 2 Sewer lines    5 Cess pool    8 Sewage lagoon    11 Fuel storage    15 Oil well/Gas well 3 Watertight sewer lines    6 Seepage pit    9 Feedyard    12 Fertilizer storage    16 Other (specify below) 13 Insecticide storage    Old water well																																																																																																																					
Direction from well? west    How many feet? 20
