

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																							
County: Sedgwick		Center 1/4 1/4 SW 1/4		4		T 26 S		R 2 E																																																																							
Distance and direction from nearest town or city street address of well if located within city? 1 MI. west 3 1/8 Miles North Of Colwich, Kans.																																																																															
2 WATER WELL OWNER: Fred Spexarth																																																																															
RR#, St. Address, Box # : RT#1																																																																															
City, State, ZIP Code : Colwich, Kansas 67030																																																																															
Board of Agriculture, Division of Water Resources Application Number:																																																																															
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 95' ft. ELEVATION:																																																																													
		Depth(s) Groundwater Encountered 1. 29' ft. 2. ft. 3. ft.																																																																													
		WELL'S STATIC WATER LEVEL 28' ft. below land surface measured on mo/day/yr April 10 -96																																																																													
		Pump test data: Well water was ft. after hours pumping gpm																																																																													
		Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																													
		Bore Hole Diameter 6 3/4" in. to 95' ft. and in. to ft.																																																																													
		WELL WATER TO BE USED AS:																																																																													
		1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 11 Injection well 2 Irrigation 4 Industrial 7 Lawn and garden only 12 Other (Specify below)																																																																													
		Was a chemical/bacteriological sample submitted to Department? Yes No XX; If yes, mo/day/yr sample was submitted																																																																													
		Water Well Disinfected? Yes No																																																																													
5 TYPE OF BLANK CASING USED:																																																																															
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued X Clamped XX2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded Blank casing diameter 3" in. to 50' ft. Dia 3" in. to 55' ft. Dia in. to ft. Casing height above land surface 18" in. weight 1.130 lbs./ft. Wall thickness or gauge No. 167																																																																															
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																															
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) SCREEN OR PERFORATION OPENINGS ARE: 5 Gauzed wrapped XX8 Saw cut 11 None (open hole) 1 Continuous slot 3 Mill slot 6 Wire wrapped 9 Drilled holes 2 Louvered shutter 4 Key punched 7 Torch cut 10 Other (specify)																																																																															
SCREEN-PERFORATED INTERVALS: From 50' ft. to 55' ft. From 85' ft. to 95' ft.																																																																															
GRAVEL PACK INTERVALS: From 95' ft. to 33' ft. From ft. to ft.																																																																															
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout XX3 Bentonite 4 Other																																																																															
Grout Intervals: From 33' ft. to 1' ft. From ft. to ft.																																																																															
What is the nearest source of possible contamination:																																																																															
1 Septic tank 4 Lateral lines 7 Pit privy XX10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																																															
Direction from well? SW How many feet? App. 1320'
