

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																															
County: Sedgwick		NW ¼ NE ¼ NW ¼		36		T 27 S		R 1 EW																																																																															
Distance and direction from nearest town or city street address of well if located within city?																																																																																							
3435 West Harry Street, Wichita, Kansas																																																																																							
2 WATER WELL OWNER: Batson Properties Paragon NDT & Finishes, Inc. 01968021 MW-5F																																																																																							
RR#, St. Address, Box # : 1029 S. West Street 1015 S. West Street Board of Agriculture, Division of Water Resources																																																																																							
City, State, ZIP Code : Wichita, KS 67213 Wichita, KS 67213 Application Number:																																																																																							
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 60 ft. ELEVATION: Aprox 1299																																																																																					
		Depth(s) Groundwater Encountered 1 13 ft. 2 ft. 3 ft.																																																																																					
		WELL'S STATIC WATER LEVEL 11.2 ft. below land surface measured on mo/day/yr 10/31/96																																																																																					
		Pump test data: Well water was ft. after hours pumping gpm																																																																																					
		Est. Yield N/A gpm Well water was ft. after hours pumping gpm																																																																																					
		Bore Hole Diameter 8.25 in. to 60 ft. and in. to ft.																																																																																					
		WELL WATER TO BE USED AS:																																																																																					
		1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																					
		Was a chemical/bacteriological sample submitted to Department? Yes No If yes, mo/day/yr sample was submitted																																																																																					
		Water Well Disinfected? Yes No																																																																																					
5 TYPE OF BLANK CASING USED:																																																																																							
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded																																																																																							
Blank casing diameter 2 in. to 8 ft. Dia in. to ft. Dia in. to ft.																																																																																							
Casing height above land surface -2 in. weight lbs./ft. Wall thickness or gauge No.																																																																																							
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																							
1 Steel 3 Stainless steel 5 Fiberglass 7 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) 12 None used (open hole)																																																																																							
SCREEN OR PERFORATION OPENINGS ARE:																																																																																							
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																																																							
SCREEN-PERFORATED INTERVALS: From ft. to ft. From ft. to ft. From ft. to ft.																																																																																							
GRAVEL PACK INTERVALS: From 6 ft. to 60 ft. From ft. to ft. From ft. to ft.																																																																																							
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																							
Grout Intervals: From 0 ft. to 4 ft. From 4 ft. to 6 ft. From ft. to ft.																																																																																							
What is the nearest source of possible contamination:																																																																																							
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage																																																																																							
Direction from well? How many feet?
