

Form WWC-5

Division of Water Resources; App. No.

1 LOCATION OF WATER WELL:		Fraction SE ¼ NW ¼ SW ¼		Section Number 24	Township Number T 27 S	Range Number R 1 W																																																																								
County: Sedgwick				Global Positioning System (decimal degrees, min. of 4 digits)																																																																										
Distance and direction from nearest town or city street address of well if located within city? 3348 West Douglas Ave, Wichita, KS				Latitude: _____																																																																										
2 WATER WELL OWNER: Midway Oil Company – Mark Boswell RR#, St. Address, Box # : 7701 E. Kellogg, Suite 630 City, State, ZIP Code : Wichita, KS 67207				Longitude: _____																																																																										
				Elevation: _____																																																																										
				Datum: _____																																																																										
				Data Collection Method: _____																																																																										
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL <u>24</u> ft.																																																																												
		Depth(s) Groundwater Encountered 1 <u>~16'</u> ft. 2 _____ ft. 3 _____ ft.																																																																												
		WELL'S STATIC WATER LEVEL <u>16.12</u> ft. below land surface measured on mo/day/yr _____																																																																												
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																												
		Est. Yield _____ gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																												
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																												
		1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																												
		2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																												
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No X ; If yes, mo/day/yr _____																																																																												
		Sample was submitted _____ Water Well Disinfected? Yes _____ No X																																																																												
5 TYPE OF CASING USED:																																																																														
1 Steel		3 RMP (SR)		6 Asbestos-Cement		8 Concrete tile																																																																								
2 PVC		4 ABS		7 Fiberglass		9 Other (specify below) _____																																																																								
Blank casing diameter <u>2</u> in. to <u>14</u> ft., Dia _____						Casing joints: Glued _____ Clamped _____																																																																								
Casing height below land surface <u>4.68</u> in., Weight _____						Welded _____ Threaded X																																																																								
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																														
1 Steel		3 Stainless steel		5 Fiberglass		7 PVC																																																																								
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																								
						9 ABS																																																																								
						11 Other (specify) _____																																																																								
SCREEN OR PERFORATION OPENINGS ARE:																																																																														
1 Continuous slot		3 Mill slot		5 Gauze wrapped		7 Torch cut																																																																								
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																								
						9 Drilled holes																																																																								
						11 None (open hole)																																																																								
SCREEN-PERFORATED INTERVALS: From <u>14</u> ft. to <u>24</u> ft. From _____ ft. to _____ ft.																																																																														
GRAVEL PACK INTERVALS: From <u>12</u> ft. to <u>25</u> ft. From _____ ft. to _____ ft.																																																																														
6 GROUT MATERIAL:																																																																														
1 Neat cement		2 Cement grout		3 Bentonite		4 Other _____																																																																								
Grout Intervals From <u>1</u> ft. to <u>12</u> ft. From _____ ft. to _____ ft.																																																																														
What is the nearest source of possible contamination:																																																																														
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																								
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																								
3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																								
						13 Insecticide Storage																																																																								
						14 Abandoned water well																																																																								
						15 Oil well/ gas well																																																																								
						16 Other (specify below)																																																																								
Direction from well? _____						Lust Site																																																																								
						How many feet? _____
