

WATER WELL RECORD

Form WWC-5

Division of Water Resources; App. No.

WEST

1 LOCATION OF WATER WELL:		Fraction		Section Number	Township Number	Range Number																																																																														
County: Sedgwick		SW 1/4	SE 1/4	20	T 27	R 1E																																																																														
Distance and direction from nearest town or city street address of well if located within city?				Global Positioning System (decimal degrees, min. of 4 digits)																																																																																
2 WATER WELL OWNER: Dwayne Hitzeman RR#, St. Address, Box # : 9910 W 2nd St North City, State, ZIP Code : Wichita, Ks 67235				Latitude: _____																																																																																
				Longitude: _____																																																																																
				Elevation: _____																																																																																
				Datum: _____																																																																																
Data Collection Method: _____																																																																																				
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 62 ft.																																																																																		
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																																		
		WELL'S STATIC WATER LEVEL 20 ft. below land surface measured on mo/day/yr																																																																																		
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		Est. Yield 40 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																		
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																		
1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																				
2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well Disposal Well																																																																																				
Was a chemical/bacteriological sample submitted to Department? Yes _____ No x ; If yes, mo/day/yr																																																																																				
Sample was submitted _____ Water Well Disinfected? Yes x No _____																																																																																				
5 TYPE OF CASING USED:																																																																																				
1 Steel		3 RMP (SR)		6 Asbestos-Cement		8 Concrete tile																																																																														
2 PVC		4 ABS		7 Fiberglass		9 Other (specify below)																																																																														
Blank casing diameter 5 in. to 3.2 ft., Dia _____ in. to _____ ft., Dia _____ in. to _____ ft.																																																																																				
Casing height above land surface 12 in., Weight 2.40 lbs./ft. Wall thickness or gauge No. 160psi																																																																																				
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																				
1 Steel		3 Stainless steel		5 Fiberglass		7 PVC																																																																														
2 Brass		4 Galvanized steel		6 Concrete tile		8 RM (SR)																																																																														
						9 ABS																																																																														
						11 Other (specify)																																																																														
						12 None used (open hole)																																																																														
SCREEN OR PERFORATION OPENINGS ARE:																																																																																				
1 Continuous slot		3 Mill slot		5 Gauge wrapped		7 Torch cut																																																																														
2 Louvered shutter		4 Key punched		6 Wire wrapped		8 Saw Cut																																																																														
						9 Drilled holes																																																																														
						11 None (open hole)																																																																														
SCREEN-PERFORATED INTERVALS:																																																																																				
From 32		ft. to 62		ft. From _____		ft. to _____ ft.																																																																														
From _____		ft. to _____		ft. From _____		ft. to _____ ft.																																																																														
GRAVEL PACK INTERVALS:																																																																																				
From 20		ft. to 62		ft. From _____		ft. to _____ ft.																																																																														
From _____		ft. to _____		ft. From _____		ft. to _____ ft.																																																																														
6 GROUT MATERIAL:																																																																																				
1 Neat cement		2 Cement grout		3 Bentonite		4 Other																																																																														
Grout Intervals From 3 ft. to 20 ft. From _____ ft. to _____ ft. From _____ ft. to _____ ft.																																																																																				
What is the nearest source of possible contamination:																																																																																				
1 Septic tank		4 Lateral lines		7 Pit privy		10 Livestock pens																																																																														
2 Sewer lines		5 Cess pool		8 Sewage lagoon		11 Fuel storage																																																																														
3 Watertight sewer lines		6 Seepage pit		9 Feedyard		12 Fertilizer storage																																																																														
						13 Insecticide Storage																																																																														
						14 Abandoned water well																																																																														
						15 Oil well/ gas well																																																																														
						16 Other (specify below)																																																																														
Direction from well? North How many feet? 15ft.																																																																																				
<table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th>FROM</th> <th>TO</th> <th>LITHOLOGIC LOG</th> <th>FROM</th> <th>TO</th> <th>PLUGGING INTERVALS</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>1</td> <td>Top soil</td> <td></td> <td></td> <td></td> </tr> <tr> <td>1</td> <td>20</td> <td>Clay</td> <td></td> <td></td> <td></td> </tr> <tr> <td>20</td> <td>35</td> <td>Medium Sand</td> <td></td> <td></td> <td></td> </tr> <tr> <td>35</td> <td>62</td> <td>Fine/Medium Sand</td> <td></td> <td></td> <td></td> </tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>							FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS	0	1	Top soil				1	20	Clay				20	35	Medium Sand				35	62	Fine/Medium Sand																																																			
FROM	TO	LITHOLOGIC LOG	FROM	TO	PLUGGING INTERVALS																																																																															
0	1	Top soil
