

1 LOCATION OF WATER WELL		Fraction		Section Number		Township Number		Range Number																																																																							
County: SEDGWICK		NE 1/4 NE 1/4 SE 1/4		26		T 27 S		R 1W E																																																																							
Distance and direction from nearest town or city?				Street address of well if located within city?																																																																											
				1029 S. WEST STREET WICHITA, KANSAS																																																																											
2 WATER WELL OWNER: BATSON HTG INC																																																																															
RR#, St. Address, Box #: 1009 So. WEST STREET																																																																															
City, State, ZIP Code: WICHITA, KANSAS																																																																															
Board of Agriculture, Division of Water Resources Application Number:																																																																															
3 DEPTH OF COMPLETED WELL: 65 ft. Bore Hole Diameter: 11 in. to ft. and in. to ft.																																																																															
Well Water to be used as:																																																																															
☒ Domestic 3 Feedlot 5 Public water supply 8 Air conditioning 11 Injection well ☐ Irrigation 4 Industrial 6 Oil field water supply 9 Dewatering 12 Other (Specify below) ☐ 2 Lawn and garden only 10 Observation well																																																																															
Well's static water level: 15 ft. below land surface measured on 12 month 20 day 1979 year																																																																															
Pump Test Data: Well water was ft. after hours pumping. gpm																																																																															
Est. Yield: gpm. Well water was ft. after hours pumping. gpm																																																																															
4 TYPE OF BLANK CASING USED:																																																																															
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile Casing Joints: Glued ☒ Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded Blank casing dia: 5 in. to 40 ft., Dia: in. to ft., Dia: in. to ft. Casing height above land surface: 12 in., weight lbs./ft. Wall thickness or gauge No: 200																																																																															
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																															
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify) 12 None used (open hole)																																																																															
Screen or Perforation Openings Are:																																																																															
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 206 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																																															
Screen-Perforation Dia: 5 in. to 65 ft., Dia: in. to ft., Dia: in. to ft.																																																																															
Screen-Perforated Intervals: From 40 ft. to 65 ft., From ft. to ft., From ft. to ft.																																																																															
Gravel Pack Intervals: From 14 ft. to 65 ft., From ft. to ft., From ft. to ft.																																																																															
5 GROUT MATERIAL:																																																																															
1 Neat cement 2 Cement grout 3 Bentonite 4 Other Grouted Intervals: From 40 ft. to 14 ft., From ft. to ft., From ft. to ft.																																																																															
What is the nearest source of possible contamination:																																																																															
1 Septic tank 4 Cess pool 7 Sewage lagoon 10 Fuel storage 14 Abandoned water well ☒ Sewer line 5 Seepage pit 8 Feed yard 11 Fertilizer storage 15 Oil well/Gas well 3 Lateral lines 6 Pit privy 9 Livestock pens 12 Insecticide storage 16 Other (specify below) 13 Watertight sewer lines																																																																															
Direction from well: EAST How many feet: 65 ? Water Well Disinfected? Yes ☒ No ☐																																																																															
Was a chemical/bacteriological sample submitted to Department? Yes ☐ No ☒ If yes, date sample was submitted month day year: Pump Installed? Yes ☐ No ☒																																																																															
If Yes: Pump Manufacturer's name Model No. HP Volts																																																																															
Depth of Pump Intake ft. Pumps Capacity rated at gal./min.																																																																															
Type of pump: ☒ Submersible 2 Turbine 3 Jet 4 Centrifugal 5 Reciprocating 6 Other																																																																															
6 CONTRACTOR'S OR LANDOWNER'S CERTIFICATION: This water well was (1) constructed (2) reconstructed, or (3) plugged under my jurisdiction and was completed on 12 month 20 day 1979 year																																																																															
and this record is true to the best of my knowledge and belief. Kansas Water Well Contractor's License No. 236																																																																															
This Water Well Record was completed on 2 month 8 day 1979 year under the business name of HARPER & PUMP SERVICE, INC. signature X m. Arnold
