

1 LOCATION OF WATER WELL:		Fraction	Section Number		Township Number	Range Number																																																																								
County: Sedgwick	SW ¼ SW ¼ NE ¼	27	T 27 S R 2 E																																																																											
Distance and direction from nearest town or city street address of well if located within city?			Global Positioning System (decimal degrees, min. of 4 digits)																																																																											
2 WATER WELL OWNER: Dawn Wilson RR#, St. Address, Box # : 512 S Reece Rd City, State, ZIP Code : Goddard, Ks 67052			Latitude: _____																																																																											
			Longitude: _____																																																																											
			Elevation: _____																																																																											
			Datum: _____																																																																											
Data Collection Method: _____																																																																														
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL 110 ft.																																																																												
		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																												
		WELL'S STATIC WATER LEVEL 50 ft. below land surface measured on mo/day/yr																																																																												
		Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																												
		Est. Yield 35 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																												
		WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																												
		1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																												
		2 Irrigation 4 Industrial (7) Domestic (lawn & garden) 10 Monitoring well																																																																												
		Was a chemical/bacteriological sample submitted to Department? Yes _____ No x ; If yes, mo/day/yrs																																																																												
Sample was submitted _____		Water Well Disinfected? Yes x No _____																																																																												
5 TYPE OF CASING USED:																																																																														
1 Steel 3 RMP (SR) 6 Asbestos-Cement 9 Concrete tile		CASING JOINTS: Glued x Clamped																																																																												
(2) PVC 4 ABS 7 Fiberglass		Welded _____																																																																												
Blank casing diameter 5 in. to 30 ft., Dia		Threaded _____																																																																												
Casing height above land surface 12 in., Weight 2.40 lbs./ft.		Wall thickness or gauge No. 160psi																																																																												
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																														
1 Steel 3 Stainless steel 5 Fiberglass (7) PVC 9 ABS 11 Other (specify) _____																																																																														
2 Brass 4 Galvanized steel 6 Concrete tile 8 RM (SR) 10 Asbestos-Cement 12 None used (open hole)																																																																														
SCREEN OR PERFORATION OPENINGS ARE:																																																																														
1 Continuous slot (3) Mill slot 5 Guaze wrapped 7 Torch cut 9 Drilled holes 11 None (open hole)																																																																														
2 Louvered shutter 4 Key punched 6 Wire wrapped 8 Saw Cut 10 Other (specify) _____																																																																														
SCREEN-PERFORATED INTERVALS:																																																																														
From 30 ft. to 110 ft.		ft. From _____ ft. to _____ ft.																																																																												
GRAVEL PACK INTERVALS: From 50 ft. to 110 ft.		ft. From _____ ft. to _____ ft.																																																																												
From _____ ft. to _____ ft.		ft. From _____ ft. to _____ ft.																																																																												
6 GROUT MATERIAL:																																																																														
1 Neat cement 2 Cement grout (3) Bentonite 4 Other _____																																																																														
Grout Intervals From 3 ft. to 50 ft.		ft. From _____ ft. to _____ ft.																																																																												
What is the nearest source of possible contamination:																																																																														
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 13 Insecticide Storage 16 Other (specify below)																																																																														
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 14 Abandoned water well																																																																														
(3) Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 15 Oil well/ gas well																																																																														
Direction from well? North		How many feet? 30ft
