

1 LOCATION OF WATER WELL: Sedgwick		FRACTION SE 1/4 SW 1/4 SW 1/4		SECTION NUMBER 11	TOWNSHIP NUMBER T 27 S		RANGE NUMBER R 2W E/W																																																																																																																															
Distance and direction from nearest town or city street address of well if located within city? 1300 N. Blackstone St. Blackstone and Blackstone Ct., 120 ft. N. (Reserve F) Wichita, Kansas																																																																																																																																						
2 WATER WELL OWNER: KELSEY DEVELOPMENT																																																																																																																																						
RR#,ST. ADDRESS,BOX #:		716 N. 119th St. W.			Board of Agriculture, Division of Water Resource																																																																																																																																	
CITY, STATE:		Wichita, Kansas			ZIP CODE: 67212		Application Number:																																																																																																																															
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 82 ft. ELEVATION:																																																																																																																																				
A diagram of a section box divided into four quadrants labeled NW, NE, SE, and SW. An 'X' is drawn in the center of the SW quadrant. To the left of the diagram is a vertical scale bar labeled '1 Mile'. Above the diagram is a horizontal arrow pointing right labeled 'E' and below it is another horizontal arrow pointing right labeled 'S'. A vertical arrow points up labeled 'N' and down labeled 'W'.		Depth of groundwater Encountered: _____ ft.																																																																																																																																				
		WELL'S STATIC WATER LEVEL 30 FT. BELOW LAND SURFACE MEASURED ON mo/day/yr: 11/13/08																																																																																																																																				
		Pump test data: Well water was _____ ft. after _____ hours of pumping @ _____ gpm																																																																																																																																				
		Est. Yield: _____ gpm Well water was _____ ft. after _____ hours of pumping @ _____ gpm																																																																																																																																				
		Bore Hole Diameter 12 in. to 82 ft. and _____ in. to _____ ft.																																																																																																																																				
WELL WATER TO BE USED AS: 1. Domestic 3. Feedlot 5. Public water supply <u>7. Lawn and garden only</u> 9. Dewatering 11. Injection well 2. Irrigation 4. Industrial 6. Oil field water supply 8. Air conditioning 10. Monitoring well 12. Other (Specify below)																																																																																																																																						
Was a chemical/bacteriological sample submitted to Department? YES NO ; If yes, what mo/day/yr was sample submitted? YES NO Was Water Well Disinfected? <u>YES</u> NO																																																																																																																																						
5 TYPE OF CASING USED: 1. Steel 3. RPM (SR) 5. Wrought Iron 7. Fiberglass 9. Other (Specify below) <u>2. PVC</u> 4. ABS 6. Asbestos-Cement 8. Concrete tile SDR-26 Blank casing diameter 5 in. to 52 ft., Dia. _____ in. to _____ ft., Dia. _____ in. to _____ ft. Casing height above land surface: 12 in., Weight: 2.35 lbs. / ft. Wall thickness or gauge No. .214 TYPE OF SCREEN OR PERFORATION MATERIAL: 1. Steel 3. Stainless Steel 5. Fiberglass <u>7. PVC</u> 9. ABS 11. Other (specify) 2. Brass 4. Galvanized 6. Concrete Tile 8. RMP (SR) 10. Asbestos-Cement 12. None used (open hole)																																																																																																																																						
SCREEN OR PERFORATION OPENINGS ARE: 1. Continuous slot 3. Mill slot 5. Gauzed wrapped 7. Torch cut 9. Drilled holes 11. None (open hole) 2. Louvered shutter 4. Key punched 6. Wire wrapped <u>8. Saw cut</u> 10. Other (specify)																																																																																																																																						
SCREEN - PERFORATION INTERVAL From 52 ft. to 82 ft., From _____ ft. to _____ ft. GRAVEL PACK INTERVALS: From 24 ft. to 82 ft., From _____ ft. to _____ ft.																																																																																																																																						
6 GROUT MATERIALS: 1. Neat cement 2. Cement Grout 3. Bentonite Other bentonite hole plug Grout intervals: From 4 ft. to 24 ft., From _____ ft. to _____ ft., From _____ ft. to _____ ft. What is the nearest source of possible contamination: 1. Septic tank 4. Lateral lines 7. Pit privy 10. Livestock pens 13. Insecticide storage 15. Oil well/Gas well 2. Sewer lines 5. Cess Pool 8. Sewage lagoon 11. Fuel storage 14. Abandon water well 16. Other (specify below) <u>3. Watertight sewer line</u> 6. Seepage pit 9. Feed yard 12. Fertilizer storage Direction from well? North How many feet? 10 ft. plus
