

WATER WELL RECORD

Form WWC-5

Division of Water Resources; App. No. _____

1 LOCATION OF WATER WELL:		Fraction		Section Number	Township Number	Range Number																																																																																				
County: Sedgwick		nw ¼ sw ¼ se ¼		23	T 27s S	R 2w E/W																																																																																				
Distance and direction from nearest town or city street address of well if located within city? 14310 W Burton St				Global Positioning System (decimal degrees, min. of 4 digits)																																																																																						
2 WATER WELL OWNER: Kurt Renoylds RR#, St. Address, Box # : 14310 W Burton St City, State, ZIP Code : Wichita, Ks 67235				Latitude: _____																																																																																						
				Longitude: _____																																																																																						
				Elevation: _____																																																																																						
				Datum: _____																																																																																						
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:				4 DEPTH OF COMPLETED WELL 90 ft.																																																																																						
N <table border="1" style="margin: auto; border-collapse: collapse;"> <tr><td></td><td></td><td></td></tr> <tr><td>NW</td><td></td><td>NE</td></tr> <tr><td>W</td><td></td><td>E</td></tr> <tr><td>SW</td><td>X</td><td>SE</td></tr> <tr><td></td><td></td><td></td></tr> <tr><td></td><td>S</td><td></td></tr> </table>							NW		NE	W		E	SW	X	SE					S		Depth(s) Groundwater Encountered 1 _____ ft. 2 _____ ft. 3 _____ ft.																																																																				
NW		NE																																																																																								
W		E																																																																																								
SW	X	SE																																																																																								
	S																																																																																									
WELL'S STATIC WATER LEVEL 28 ft. below land surface measured on mo/day/yr _____				Pump test data: Well water was _____ ft. after _____ hours pumping _____ gpm																																																																																						
Est. Yield 25 gpm: Well water was _____ ft. after _____ hours pumping _____ gpm				WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																						
1 Domestic 3 Feed lot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)				2 Irrigation 4 Industrial 7 Domestic (lawn & garden) 10 Monitoring well																																																																																						
Was a chemical/bacteriological sample submitted to Department? Yes _____ No x ; If yes, mo/day/yr _____				Sample was submitted _____ Water Well Disinfected? Yes x No _____																																																																																						
5 TYPE OF CASING USED:																																																																																										
1 Steel		3 RMP (SR)		6 Asbestos-Cement		8 Concrete tile																																																																																				
2 PVC		4 ABS		7 Fiberglass		9 Other (specify below)																																																																																				
Blank casing diameter 5 in. to 50 ft., Dia						CASING JOINTS: Glued x Clamped																																																																																				
Casing height above land surface 12 in., Weight 2.40 lbs./ft.						Welded																																																																																				
TYPE OF SCREEN OR PERFORATION MATERIAL:						Threaded																																																																																				
1 Steel 3 Stainless steel 5 Fiberglass 7 PVC						9 ABS 11 Other (specify)																																																																																				
2 Brass 4 Galvanized steel 6 Concrete tile 8 RM (SR)						10 Asbestos-Cement 12 None used (open hole)																																																																																				
SCREEN OR PERFORATION OPENINGS ARE:																																																																																										
1 Continuous slot 3 Mill slot 5 Gauge wrapped 7 Torch cut 9 Drilled holes 11 None (open hole)																																																																																										
2 Louvered shutter 4 Key punched 6 Wire wrapped 8 Saw Cut 10 Other (specify)																																																																																										
SCREEN-PERFORATED INTERVALS:																																																																																										
From 50 ft. to 90 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
GRAVEL PACK INTERVALS:																																																																																										
From 28 ft. to 90 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
6 GROUT MATERIAL:																																																																																										
1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																																										
Grout Intervals From 3 ft. to 28 ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.		From _____ ft. to _____ ft.																																																																																				
What is the nearest source of possible contamination:																																																																																										
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 13 Insecticide Storage 16 Other (specify below)																																																																																										
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 14 Abandoned water well																																																																																										
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 15 Oil well/ gas well																																																																																										
Direction from well? North				How many feet? 13
