Assignment of Water Well to Landowner

NW-NE-NE-SE 14-27-24W

Ford Co., Kansas

Dear Mr. Harper:

Enclosed for your files are a number of documents relative to the above referenced water well which was drilled by Rosencrantz-Bemis (KWWCL#134) on behalf of Vincent Oil Corporation.

The well was drilled in May of 2012 as a water supply well for an oil well drilling operation.

The landowner of the property on which the well is located has elected to assume responsibility for the water well under existing Kansas law and / or regulation.

Towards that end I have attached the following for your records:

- 1. A copy of the Water Well Record (Form WWC-5)
- 2. A copy of the Water Appropriation Temporary Permit # 20120330 00
- 3. A signed original Assignment of Water Well to Landowner (KDHW Form WWC-7)

After reviewing the enclosed documentation should you have any questions or require additional information to complete this transfer please contact me at your earliest convenience. I can be reached at the address and or telephone number shown in the above letterhead.

Sincerely,

Andrew Clark

Secretary and Vice President Vincent Oil Corporation

RE:

Temporary Permit

File No. 20120330

Dear Sir or Madam:

Your application for temporary permit to appropriate water for beneficial use has been examined, approved, and is being returned herewith for your records.

The approval of your application constitutes a temporary permit to appropriate water for beneficial use, as set forth in the application. This permit does not give authority to any right-of-way, or authorize injury to, or trespass upon public or private property, does not constitute authority under K.S.A. 82a 301 through 305 to construct any dam or other obstruction; nor does it obviate the necessity of assent from Federal or Local Governmental authorities, when necessary. Records must be maintained from which the quantity of water actually diverted may be readily determined.

Any new well(s) drilled under the authority of this permit must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment (KDHE) upon completion of the project. If the well is to be retained by the landowner for other purposes, the well(s) must initially be properly constructed by the well driller to comply with Article 30 of the Rules and Regulations as adopted by KDHE. A copy of the legal transfer of responsibility for maintenance of the well must also be forwarded to the KDHE Geology Section, 1000 SW Jackson, Suite 420, Topeka, Kansas, 66612, telephone (785) 296-5524.

K.S.A. 82a-728 sets forth, in essence, that it is unlawful to divert or threaten to divert water for the type use you propose without first acquiring approval of the Chief Engineer of the Division of Water Resources. K.S.A. 82a-737 sets forth that violation of the Kansas Water Appropriation Act, any adopted rule or regulation, or any order of the Chief Engineer, may be subject to a civil penalty of up to \$1000, per violation. Each day that any such violation occurs can be considered a separate offense.

If you have any questions, please contact our office at (785) 296-3717.

Kenneth A. Kopp, L.G.
