

1 LOCATION OF WATER WELL:		Fraction		Section Number		Township Number		Range Number																																																																																																	
County: Kiowa		SW ¼ NW ¼ SE ¼		16		T 28 S		R 18 E W																																																																																																	
Distance and direction from nearest town or city street address of well if located within city? 102 E. Kansas, Greensburg																																																																																																									
2 WATER WELL OWNER: Farmer's Grain & Supply																																																																																																									
RR#, St. Address, Box # : 102 E. Kansas Ave.					Board of Agriculture, Division of Water Resources																																																																																																				
City, State, ZIP Code : Greensburg, Kansas 67054					Application Number:																																																																																																				
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:			4 DEPTH OF COMPLETED WELL 97 ft. ELEVATION:																																																																																																						
			Depth(s) Groundwater Encountered 1. ft. 2. ft. 3. ft.																																																																																																						
			WELL'S STATIC WATER LEVEL ft. below land surface measured on mo/day/yr																																																																																																						
			Pump test data: Well water was NA ft. after hours pumping gpm																																																																																																						
			Est. Yield NA gpm: Well water was ft. after hours pumping gpm																																																																																																						
			Bore Hole Diameter 8 in. to 97 ft., and in. to ft.																																																																																																						
			WELL WATER TO BE USED AS: 5 Public water supply 8 Air conditioning 11 Injection well																																																																																																						
			1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)																																																																																																						
			Air sparge																																																																																																						
			2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																																																						
			Was a chemical/bacteriological sample submitted to Department? Yes.....No ☒ ; If yes, mo/day/yr sample was submitted																																																																																																						
			Water Well Disinfected? Yes No ☒																																																																																																						
5 TYPE OF BLANK CASING USED:																																																																																																									
1 Steel			3 RMP (SR)		5 Wrought iron		8 Concrete tile		CASING JOINTS: Glued Clamped																																																																																																
2 PVC			4 ABS		6 Asbestos-Cement		9 Other (specify below)		Welded																																																																																																
					7 Fiberglass				Threaded. ☒																																																																																																
Blank casing diameter 2 in. to 95 ft., Dia in. to ft., Dia in. to ft.																																																																																																									
Casing height above land surface in., weight lbs./ft. Wall thickness or gauge No. Sch. 40																																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL																																																																																																									
1 Steel			3 Stainless steel		5 Fiberglass		7 PVC		10 Asbestos-cement																																																																																																
2 Brass			4 Galvanized steel		6 Concrete tile		8 RMP (SR)		11 Other (specify)																																																																																																
							9 ABS		12 None used (open hole)																																																																																																
SCREEN OR PERFORATION OPENINGS ARE:																																																																																																									
1 Continuous slot			3 Mill slot		5 Gauzed wrapped		8 Saw cut		11 None (open hole)																																																																																																
2 Louvered shutter			4 Key punched		6 Wire wrapped		9 Drilled holes																																																																																																		
					7 Torch cut		10 Other (specify)																																																																																																		
SCREEN-PERFORATED INTERVALS: From 95 ft. to 97 ft., From ft. to ft.																																																																																																									
From ft. to ft., From ft. to ft.																																																																																																									
GRAVEL PACK INTERVALS: From 92 ft. to 97 ft., From ft. to ft.																																																																																																									
From ft. to ft., From ft. to ft.																																																																																																									
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other Concrete																																																																																																									
Grout Intervals: From 4 ft. to 80 ft., From 80 ft. to 92 ft., From ft. to ft.																																																																																																									
What is the nearest source of possible contamination:																																																																																																									
1 Septic tank			4 Lateral lines		7 Pit privy		10 Livestock pens		14 Abandoned water well																																																																																																
2 Sewer lines			5 Cess pool		8 Sewage lagoon		11 Fuel storage		15 Oil well/Gas well																																																																																																
3 Watertight sewer lines			6 Seepage pit		9 Feedyard		12 Fertilizer storage		16 Other (specify below)																																																																																																
							13 Insecticide storage																																																																																																		
Direction from well? How many feet?
